Dear Mr. Kell,

I'm pleased to confirm that InterCement reaffirms its commitment to the Ten Principles of the United Nations Global Compact related to Human Rights, Labor Rights, Environmental Protection and Anti-Corruption Compliance, contributing to the UN Development Goals.

In the Market since 1974, InterCement is based in Brazil and has operations in eight countries in three continents. In 2012, our company concluded the acquisition of Cimpor, becoming one of the top global cement players and one of the most relevant companies in the industry. In this moment of construction of a new business culture we reaffirm our commitment with the Global Compact's principles as a guidance framework to our daily activities.

We recognize the Communication of Progress (COP) as major tool of disclosure of InterCement's commitment and actions in the implementation of the Ten Principles. We do support information transparency, understanding it as a requirement for sharing sustainability initiatives with our stakeholders.

Yours Sincerely,

José Edison Barros Franco
InterCement Chairman of the Board
