## WHO ARE WE AND WHAT ARE WE DOING?

*We have had operations in the Northern Cyprus since 1994. In our establishment, our purpose was to teach the computer use and its technologies. After a while, our operations were developed by our commitment of the sales, training and support for the Commercial Packaged Software. GigaByte Ltd. provided service only in the subjects of Training and Software between the years of 1995 – 1996.*

*By establishing the sales, setup, repair and service center for computers, it began to provide service in the hardware sector as well in 1997. By this means, it became a Company that was creating solutions for Network and Automation and that providing service to these systems. It was the first domestic company that was creating solutions for the Market and Store automations and that giving support to these solutions in 1998.*

*Their IBM solution partnership which was established by it 1999 resulted in its being the sole and the leader company providing service in retail sector. The studies continued in spite of the crisis in 2000 and it developed software solutions for the devices such as Price Verifier / Checker Systems, Barcode Printers and Barcode Scales rarely used in the Country.*

*In 2003, it presented the palm-based devices and hand held computers to the market, created solutions for these devices and ensured that these products were used in its own market. The systems such as Pharmacy, Water-Meter Reading, Billing In-Place, and Stock Taking are the examples for them. By expanding its software team, it developed the StockMan – which was its own Packaged Software in the same period. Its project studies continued in 2004, but they changed direction due to the obligation for transition to YTL and it successfully accomplished the operation for omitting 6 zeros. Moreover, it was deemed as being worthy of The Top Service Award of IBM POS in this respect for the second time.*

*In 2005, however, it improved its studies on the Mobile applications and established the Solution Partnership with the DATAKOD Company for the Wireless and Mobile solutions such as GSM/GPRS, Wi-Fi, BlueTooth. It succeeded to establish the communication of IBM in Entry01 cash register with PC via the Bluetooth modem. In 2006, it also continued its studies and presented the new versions of the StockMan, FinanceMan, BarcodeMan and SMPOS software to the usage of its customers by adding a great deal of new features to the software it was developing. Moreover, the necessary modifications were applied for making electronic commerce both with DSDS and StockMan software.*

*We transformed our software products to software package in 2011 and we made a brand of softwaremen also established [www.softwaremen.com](http://www.softwaremen.com) site. To sales and marketing of the country, we created a dealer network and managed this network through the B2B site. We were also become Microsoft ISV Gold partner and software continues to improve its standards.*

*At the beginning of the year 2012, we could complete datacenter projects that are in progress 2 years. And Gigabyte Ltd. started to provide data hosting services. [www.datumcenter.com](http://www.datumcenter.com) site set up for these services to the end user via the electronic trading system serves. To increasing the level of knowledge about Network , we added Cisco select partnership program. In addition we were expertise in security with Kaspersky and expertise in backup systems with Acronis the business relations. We became membership with Ripe NCC has its own IP block can offer customers. TSE technical service and software company with ISO 9001 and 27001 certifications adopted the concept of the international standards of service.*

*Gigabyte Ltd shareholding structure was change August 2014. One of Director Lisani Deniz left from company. New shareholder people is Can Kaygısız and new secretary is Erkan Özyanak.*

## VISION MISSION VE PRINCIPLES

*By the speed of information, the fast-growing world gains acceleration as much again. This fast-growing process drives the IT sector before itself just as the brownout driven before a hurricane. Everyday we stand with open mouth before a new development or a new information product. What can be done? Is it possible to stand before this information hurricane without collapsing and being dispersed?*

*Here GigaByte Ltd. has been challenging the time, speed and dispersing by means of both its knowledge and the Sales, Accounting, training-support, technical service, network and software staff it established and also by means of both its customer-focused service and support system and the solid business partnerships it established since 1994. It shall proceed to develop itself and continue to grow by means of the solutions it shall perform with the high-powered dealer networks it has currently established in the country and it will establish in abroad.*

*Gigabyte Ltd,*

- It prioritize the customer satisfaction unconditionally.*
- It provides high quality solutions with high quality products.*
- It seeks for the most adequate combination in the triangle of price, quality and performance.*
- It follows up new Technologies and introduces them with its customers.*
- It provides institutional solutions for increasing productivity and stability.*

### **Our Vision:**

*To be a Company ensuring that its customers are developed all the time by means of the High Quality products and High Quality solutions, learning, teaching while learning and growing by renewing itself in the Northern Cyprus, Turkey and in the whole World.*

### **Our Mission:**

*To work systematically and fastidiously for the purpose of improving customer-focused institutional solutions in many fields of the information sector by following up the new technologies in the fast-growing and developing information world.*

### **Our Principles:**

*Work as team work and with High Quality service understanding.*

*Work decidedly and without regarding overtime work on the basis of honesty and reliability.*

*Work in order to be better than our competitors, not to discredit them.*

*Be capable of providing positive values to our customers by sharing with them.*

*Create areas of expertise rather than doing every work.*

*Respect positive, creative and innovative ideas.*

*Give importance to knowledge, technology and new systems.*

*Respect to human being, society, nature and the Country.*

*Believe in peace not war, in love not violence.*

## THE MESSAGE OF THE DIRECTOR:

*Gigabyte Ltd aims developing with its workers in a way it pleases its customers and introducing products and services of international standard and quality.*

*Till the present it has been such an informatics company that it aims respecting human rights with a responsibility consciousness, being environmentally- conscious, observing security and rights of its workers, giving a serious importance to humane, environmental and commercial values and also from now on it will maintain all of them.*

*Since the very day it was founded, it has arranged planting tree programs for several times, with the campaigns "A Tree for Every Computer User" it has shown how a great importance it gives to its environment and it has carried on its studies with both its workers and its shareholders to create and to sustain this consciousness.*

*Gigabyte LTD. signed the Global Principles Agreement as a company so, not only has it proven that it supports all the principles of this agreement but also recognized that every single step taken about human rights, worker rights and security has an international value*

*Thus, regardless of the fact that we live on a very small island, we work and serve in a way we are conscious of our responsibilities towards the whole world. We will go on living and struggling with these values.*
