To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to the fact that our accounting year runs from 01.07.2014 – 01.07.2015 and we first after this period need to receive all the environmental data from all our different suppliers and waste handlers to be able to finish the environmental reports and see if our environmental goals is reached.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 25. November 2015 at the latest.

Sincerely yours,

Ms. Gunhild Lundby Dokkedal
