Dear Secretary-General,

RBPLAT CONTINUED COMMITMENT TO THE TEN UNGC PRINCIPLES

I am pleased to confirm Royal Bafokeng Platinum Limited's ("RBPLAT") continued support for the ten principles of the United Nation's Global Compact ("UNGC") with respect to human rights, labour, environment and anti-corruption.

RBPlat is a majority community-owned, mid-tier JSE listed Platinum producer located in Johannesburg, with its operations in Rustenburg, North West Province of South Africa. Our vision as a mining company is "*to seek and deliver the good from mining*"; we are guided in achieving this vision by our sustainability objectives and mission of leaving a lasting legacy through stakeholder beneficiation.

With this communication, we express our intent to further advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our Company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. RBPlat will make a clear statement of this commitment to our stakeholders and the greater public not only by adopting appropriate policies, but also in its actions to advance the UNGC principles.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to continuing reporting *annually*, according to the Global Compact COP policy. This year we cross-referenced the 10 Principles in our Integrated Report to reflect its integration into our business.

Sincerely Yours,

Mr. Steve Phiri
Chief Executive Officer
Royal Bafokeng Platinum
