Dear Mr Secretary-General,

I am pleased to confirm that EDF fully supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the Global Compact and its principles part of the strategy, the culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millenium Development Goals. EDF regularly makes a clear statement of this commitment to the stakeholders and the general public. Furthermore, we will pay careful attention to the future Sustainable Development Goals and their agenda.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress annually according to the Global Compact COP policy.

This includes :

- A statement signed by the Chief Executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of practical actions (i.e. disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement Global Compact principles in each of the four issues areas (human rights, labor, environment, anti-corruption). In 2015, EDF published this description on the web site of the company: <https://www.edf.fr/en/the-edf-group/responsible-and-committed/reports-and-indicators>.
- A measurement of outcomes (i.e. the degree to which targets / performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

Jean-Bernard Lévy
