New York, NY 10017

Dear Friends:

We sincerely appreciate you reminder about the deadline for submitting our companies' annual Communication on Progress (COP) to the Global Compact website on october, 2015.

Companies in our corporate group have demonstrated their commitment, so they have been involved in the Local Network and have taken an active part in the workshops tables, coordinated and chaired by the "Red Pacto Global Colombia", in order to facilitate the progress of companies engaged with respect to implementation of the ten principles.

We are committed with ten universally accepted principles, and to comply the policy of communicate to you our annual progress on their implementation, and to publish our Communication on Progress (COP) on the Global Compact Website. We're preparing our annual report, however, we foresee a delay in our communication and we request that you extend the deadline, and for that reason we're submitting this grace letter for a 90 day extension to our COP. We request your understanding and thank you for not expel us from the initiative.

Sincerely,

LILIANA PATRICIA GUZMAN
