School vision & Goal:

A school that produces children with a free mind.

A school that cherishes humanist values, ethics

A school that is self sustaining and self reliant

A school that is pro-science in each aspect promoting evidence based learning.

A school where there is no indoctrination or dogmas of any kind whether humanism/atheism/religion.

A school whose products are ambassadors in promoting Science and free thought.

What makes Kasese Humanist Primary school so unique from other schools :

- Acceptance of learners to join our school irrespective of their belief systems.
- The school uniform is the dress code for our students while at school.
- Tolerate all beliefs and have offered believers ample time to go exercise their beliefs at respective places of worship.
- There is exposure of literature on science, free thought and some hard to find books in our library.
- There is a talking compound where words of encouragement, quotes have been placed at specific points on campus for people to look at and understand more about humanism.
- Humanist Principles have been fixed on the walls of each class, we do expose to the children science based documentary films on people, nature and way of life and we do celebrate important secular days where we remember prominent figures in the field of free thought and science.
- There is a free thinkers club at the school which holds debates and engages in community activities.
- We expose to our children vocational and computer skills.
- We orientate our learners to poultry keeping and give them the skill to look after chicken.
- We are engaged in active and sustainable farming at the BIZOHA Farmland located in Muhokya.

Future plans of Kasese Humanist Primary School

- Initiate hostel facilities for boys and girls at our campuses.
- Improve on fencing up our schools.
- Improve on water availability at various points within the school property.
- To get the school acquire license and finally registration/sitting center number so that my pupils sit for their final exams at the school premises.
- Devise a viable income generating activity to supplement day to day collections of fees from parents of the school. (Hostels/Safari lodge/Secretarial bureau/School farm)
- To procure a school bus to favor easy pick up of far away children interested in attending our school.
- To showcase several activities done by the pupils through holding exhibitions, presentations and documentaries so as to allow the general public get posted on what we are doing.
- Expanding on the playing materials we have to accommodate the increasing number of children.
