

INTERNATIONAL
ACADEMY for
QUALITY

*A community of the world's leading executives, practitioners
and academics dedicated to promoting the cause of Quality*

22 October 2015

Memorandum

From Janak Mehta

To:

All Members of the Academy

Sub: Our pledge to contribute towards achievement of Millennium Development Goals

The Academy became a signatory to the UN Global Compact to endorse the Global Compact in December 2010 with a pledge to uphold ten principles that represent the core values in the areas of human rights, labor, the environment and anti-corruption which enjoy universal consensus. The UN Global Compact asks that organizations embrace, support, and enact these values within their sphere of influence.

It was in this context the Academy restructured its vision and values in 2012, revised the Bylaws and strategies in 2013 to fully support the ten principles of UN Global Compact. In true spirit we reconfirm our commitment to uphold and contribute to achievement of those goals within the Academy and wherever else we are involved collectively or individually. We are committed to communicate our commitment visibly through various channels.

Sincerely yours,

Janak Mehta,

Chairman,
