## Communication on Engagement

22 October 2015

With this letter, the Global Public Policy Institute expresses its continued support for the Global Compact and renews its ongoing commitment to the initiative and its ten principles.

Since our membership in January 2012, we have taken several actions to engage with the Global Compact initiative and to support the principles. Where appropriate and feasible we have participated at events of the local German Network. Our most recent participation was at the conference on “The Future of Corporate Sustainability and the UN Global Compact in Europe”.

In our work with governments, international institutions, foundations and other NGOs, we have both promoted the importance of a number of issues related to the principles of the Global Compact and its issue platforms as well as, in some cases, helped to define strategies of actors with respect to, for example, the Sustainable Development Goals.

Within our own organization, we promote values such as an equal opportunity environment, transparency and accountability, among others, and we also promote these values vis-à-vis our funders and partners.

We will enthusiastically continue to support the principles of the United Nations Global Compact in the years to come.

Yours sincerely,

Wolfgang Reinicke

President, GPPi
