

20 October 2015

Dear Partners and Stakeholders,

The Micronutrient Initiative (MI) is preparing its first Communication on Engagement (COE) Report. Submission of a COE is required by the UN Global Compact. MI will submit the COE no later than 31 January 2016. MI intends to prepare a robust stand-alone document that captures the outcomes of our engagement, which requires additional time and resources at a time that MI is also preparing multiple publications; hence the slight delay in our submission.

We reaffirm our commitment to engaging with businesses that adhere to the Ten Principles of the UN Global Compact and to participating in the activities of the UNGC Network Canada.

Sincerely,

Robyn Bright
Manager
Strategic Partnerships and Resource Mobilization
