Dear Mr. Secretary General,

I am pleased to confirm that The Energy and Resources Institute supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

- Creating Innovative Solutions for a Sustainable Future
- Tackle issues of concern to Indian society, and the world at large, and develop innovative and cost effective solutions.
- Enhance networking for sustainable interventions.
- Realize potential for national and international leadership as a knowledge based agent of change in the fields of energy, environment, other natural resources and sustainable development.
- Inspire and reach out to diverse stakeholders for realizing a shared vision of global sustainable development that could be translated into action.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Dinesh Varma
