Ongoing support for the Global Compact

Klépierre reasserts its support for the principles of the United Nations Global Compact and the ten universal principles it promotes on human rights, work standards, the environment and the fight against corruption. The Group has been a signatory since 2013.

The Good Choices® logic by which we operate leads us to ask ourselves whether our actions matter in terms of CSR. Making good choices and making the right decisions can only be understood in relation to what is at stake for Klépierre, its shopping centers and all its stakeholders. For Klépierre, making a commitment to responsible development means combining irreproachability, efficiency and innovation.

In 2014, an assessment of the situation of human rights was conducted in all of our countries using the self-assessment tool proposed by the Global Compact.

The information presented in the 2014 Annual Report directly reflects our convictions and correspond to our Communication on Progress for 2014. It also gives a better idea of the Group's commitments and responsibility and is presented with a genuine concern for transparency.

Laurent MOREL

Président du Directoire de Klépierre
