Ban Ki-moon  
General Secretary  
United Nations  
New York, NY 10017  
USA

Mr. General Secretary,

In 2013, CIEDS – Center for Integrated Sustainable Development Studies – joined the Global Compact and along with thousands of organizations directly contributed to the development of initiatives which contribute to the respect to human rights, the environment and anti-corruption policies.

CIEDS is a social, nonprofit and charitable organization that for 17 years has created and developed social technologies that promote more effective public policies and strategic social investment. We articulate partnerships for building networks for prosperity. We believe prosperity is good education, good nutrition, health, governance and, above all, confidence in the future.

We are pleased to produce our report Communication on Engagement (COE): CIEDS' actions aligned with the UN Global Compact. There are presented all initiatives and projects developed by the institution from January 2014 to December 2015 that contributed to the objectives of the Compact and therefore caused a positive impact on people, families and communities.

Soon this report will be available for download in English and in Portuguese by employees, strategic partners, funding partners and media on CIEDS website.

We reaffirm in this letter our commitment in establishing these principles among our sphere of influence through the projects we develop with our partners and, whenever possible, participating in the activities organized by the Global Compact.

Sincerely,

Vandré Brilhante  
Diretor-Presidente CIEDS
