Title: ENVIRONMENTAL MANAGEMENT SYSTEM POLICY AND SCOPE		Issue Date: 1 Dec 2010

1. EMS Policy and Scope

1.1 EMS policy

**Fyno Precision Pte Ltd,
recognize that we have a responsibility to control and continuously
improve our activities, products and services to
prevent pollution to the environment.**

**We are committed to conserve and protect the environment and
strive to comply with all relevant legislative and regulatory requirements
and other applicable requirements to which we subscribe
through the implementation of the
ISO 14001 Environmental Management System (EMS) programmes.**

1.2 EMS Scope

The scope of the EMS is applicable to the activities as followed:

Precision Engineering

With reference to the policy statement above, the Company is committed to meet environmental legislation and regulatory requirements from the following sources.

- Country's EHS legislation and regulations (service provided by EQS for Singapore)
- Requirements received from Customers.
- External or interested parties, such as the Public.
