Communication on Progress

To whom it may concern,

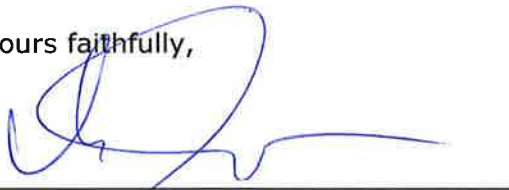

It is my great pleasure to inform you that CWS-boco International GmbH continues to support the ten Global Compact principles in the areas of human rights, labour, the environment and anti-corruption.

In the second year following the start of our participation in the UN Global Compact, we remain wholly committed to promoting the principles within our sphere of influence.

We strive to integrate the Global Compact and its principles into our corporate strategy, our corporate culture and our day-to-day business activities over the coming years, and we also undertake to participate in cooperation projects which serve to advance the general goals of the United Nations, in particular the Millennium Development Goals. CWS-boco International GmbH communicates its involvement in the Global Compact clearly to its stakeholders and the general public.

By submitting our third Communication on Progress (CoP) for 2014, we wish to outline our company's efforts to implement the ten principles and offer an insight into the measures taken and the results thereof. Furthermore, our Corporate Sustainability Report offers additional details on the progress we made since the publication of our last CoP.

Yours faithfully,

A handwritten signature in blue ink, appearing to be 'Maximilian Teichner', written over a horizontal line.

Maximilian Teichner, CEO
