

31st October 2015

To our stakeholders:

The Center for Creative Initiatives in Health and Population (CCIHP) has been very happy to be part of the Global Compact initiatives where we can keep updated and learn a lot from initiatives of partners around the world. The information has been very useful for us to improve our work at CCIHP to improve the sexual and reproductive health and rights of migrant workers and to engage employers in this work in Vietnam. We would like to confirm our continuity with the Global Impact initiatives.

Sincerely yours,

Hoang Tu Anh

CCIHP Director
