

UN GLOBAL COMPACT REPORT 2016

World Mediation Organization

Dear Gentlemen,

it is my pleasure to report on the recent activities of the World Mediation Organization. It was of upmost interest to promote the 10 Principles of UN Global Compact as wide as possible. Therefore, the topic of UN Global Compact was implemented to the organization's website.

Due to this very basic step, the 10 Principles of UN Global Compact became visible during all our activities. By offering conferences on a global level, the common vision of the World Mediation Organization and UN Global Compact was spread in a trans-border way.

Additionally, the World Mediation Organization Online Training offers a concrete chapter on Gender Issues. Specifically this fact is highly important to us, as it enables the content of the 10 Principles of UN Global Compact to become part of one of our core business sections.

Best regards,

Daniel Erdmann

Director and Founder

World Mediation Organization
