DESCRIPTION OF ACTIONS

(1) Have a dedicated sustainability plan or a holistic city/regional plan that incorporates the ecological, economic, political, and cultural dimensions of the region's sustainability;

The Paola Local Council between 2013-2015 continued to implement its REPAIR Action Plan which responds directly to actions that support the UNGCCP principles. It comprises 4 Pillars of Action based on SPUR (Sustainable Planning for Urban Regeneration) policy. The 4 Pillars include; (1) Conservation and Restoration; (2) Energy and Waste Management (3) Transit; and (4) Local Jobs for Local People. Under this Action all programmed projects have been terminated (6).

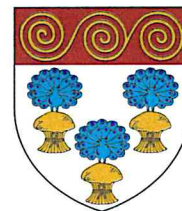

(2) Engage at the Innovating Level – undertaking a multi-year project to address a complex or seemingly intractable issue(s) within the city or region, which is supported by leaders across business, civil society and Government.

All the projects Paola Local Council developed through its Action Plan have had an element of innovation and research including; ESF 3:110 Better Future: Promoting an equal and inclusive labour market which project saw the development of courses for inmates and parolees to prepare them for employment. The innovation was in delivering newly designed courses aided by an internal web based application to assist trainers and trainees. The other projects supported research for the development and regeneration of Parks and Gardens through Interreg Hybrid Parks and the compilation of a Corradino Lines Recreational Park Management Plan directed at the adaptive -reuse of military fortifications.

(3) Implement and promote the ten principles of the UN Global Compact in the management and administration of the city or region;

The projects delivered by Paola Local Council in the past two years which includes the Sustainable Urban Mobility Plan and the Pjazza Paola Regeneration sought to develop further the 10 principles through; democratisation in planning, transparency and new governance opportunities.
