Dear Mr. Secretary-General,

I am pleased to re-affirm United Airlines' commitment to the ten principles of the Global Compact. With this communication, I present our Communication on Progress for 2014 which outlines the activities associated with making the Global Compact and its principles an important part of our Corporate Responsibility strategy.

Our 2014 Corporate Responsibility Report provides insight into our efforts on the Environment, Employee and Supplier Diversity, Ethics and Compliance and shares our Human Rights Policy.

As an airline, our business is predicated on making connections that are a significant economic engine helping connect people to family, friends and business all around the globe. As a global business we believe in carrying out our business in a responsible manner and actively work to mitigate the impact of our business on the environment in accordance with all applicable laws and regulations.

We are proud to support the Global Compact and look forward to our continued partnership.

Sincerely,
