The Corporate Responsibility Fact Book contains disclosures regarding the Nykredit Realkredit Group's corporate social responsibility (CSR). The Corporate Responsibility Fact Book also includes Nykredit's statutory disclosures on corporate social responsibility in accordance with sections 135 and 135a of the Danish Executive Order on Financial Reports for Credit Institutions and Investment Companies, etc. issued by the Danish FSA.

UN Global Compact

-Nykredit commits to sustainable conduct

Principle	Approach
Human rights	
1. Businesses should support and respect the protection of internationally proclaimed human rights.	Nykredit's portfolios are screened twice a year to make sure that they are in accordance with the UN Global Principles for Responsible Investment. In addition to regular screening, Nykredit's portfolios are subject to continuous monitoring in order to assure its customers that steps are taken against non-compliant companies.
2. Businesses should make sure that they are not complicit in human rights abuses.	Nykredit's investment policy implies that Nykredit will try, through dialogue, to make non-compliant companies change their conduct. If necessary, Nykredit will join forces with other investors in the attempt to bring about a change of conduct. Where dialogue does not lead to a change of conduct, Nykredit may sell its securities in the company. In addition to regular screening, Nykredit has a socially responsible investment policy, which can be found on our website.
Labour standards	
3. Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining.	Nykredit has a good relationship with NYKREDS, its staff association, and Nykredit appreciates that NYKREDS seeks influence and works to ensure that staff conditions are considered in the day-to-day operations and the continuous group development. Interaction takes place at many levels: between the individual supervisor and union representative, in the local and central works councils and health and safety committees, as well as in a number of ad hoc working groups.
4. Businesses should uphold the elimination of all forms of forced and compulsory labour.	In order to support the objective of being an attractive and challenging workplace, Nykredit has prepared a staff policy, which is being implemented through the local works councils in dialogue with NYKREDS.
5. Businesses should uphold the effective abolition of child labour.	Nykredit's portfolios are screened twice a year to make sure that they are in accordance with the UN Global Principles for Responsible Investment. Based on the outcome, Nykredit decides which steps should be taken if a company in which it has invested does not comply with the conventions.

6. Businesses should uphold the elimination of discrimination in respect of employment and occupation.	Nykredit widely supports staff diversity in age, gender, sexual orientation, ethnicity and disability. We believe that a diverse staff, reflecting who our customers are, strengthens the business and fosters a good and innovative working environment.
Environment	
7. Businesses should support a precautionary approach to environmental challenges.	Nykredit intends to boost internal energy efficiency by combining reductions in energy consumption with the establishment of renewable energy systems such as solar cells. Also, we are in the process of reducing emissions from transport.
8. Businesses should undertake initiatives to promote greater environmental responsibility.	The objective of our internal efforts is to achieve an absolute reduction of 65% of Nykredit's total CO2 emission by end-2020. Transport will account for an 8% reduction and internal efficiencies and renewable energy systems for 32%. Via our business initiatives, Nykredit will promote the Energy Agreement's target of more renewable energy in the Danish energy supply network. The contribution from Energy Agreement 2020 will be in the range of a 25% reduction of Nykredit's total CO2 emission relative to the 2012 levels.
9. Businesses should encourage the development and diffusion of environmentally friendly	Nykredit has a climate and environment strategy up to 2020, focusing on both Nykredit's financial service activities and a reduction of Nykredit's own CO2 emission.
Anti-corruption	
10. Businesses should work against corruption in all its forms, including extortion and bribery.	Nykredit's anti-corruption policy sets out the principles for Nykredit's approach to countering any form of corruption. The policy points to specified activities and areas in which management and staff must be particularly alert to a potential risk of corruption. Initiatives such as e-learning programmes for all staff members aim to ensure that all Nykredit Group staff act ethically correct at any time. The risk of corruption at the Nykredit Group is assessed as low, as Nykredit is a Danish-based financial services group with relatively few foreign customers and operates mainly in Scandinavia and the EU. But typical risk areas include nepotism, conflicts of interest, money laundering and inappropriate gifts.

Sustainable investments

Nykredit's sustainable investments policy

Financial sustainability

Nykredit's sustainable investment policy is based on the same awareness as Nykredit's business concept of "Financial Sustainability": That sustainability may be a catalyst for higher returns and lower risk. This is why Nykredit is committed to both Global Compact and UNPRI; accordingly, our investment policy not only pertains to Nykredit's investment funds, but also to the Group's investment of its own funds.

Two legs

Nykredit's policy rests on two legs. One leg is to push for a solution when a company violates national legislation, generally accepted UN conventions or Global Compact's principles. We see this as taking active ownership. The other leg is our objective to increasingly use knowledge about corporate sustainability performance (environment, social and governance criteria) in the investment process.

Screening of portfolios

Each quarter we screen all internally as well as externally managed equity, corporate and mortgage bond portfolios of Nykredit's investment funds, and Nykredit's and its subsidiaries' investment of own funds, with the assistance of our investment adviser.

Active ownership

When we receive confirmed information on breach of conventions etc, we take active ownership of the relevant company in order to make it change its conduct. We may cooperate with other investors, or we may choose to cast our vote at the company's general meeting. Should the dialogue prove unsuccessful or are the company's core operations in violation of international law, we will exclude the company. If the Sustainable Investment Committee decides to exclude a company, an evaluation will be undertaken within two years of the decision in order to determine whether exclusion of the company is still warranted. Financial instruments such as financial derivative instruments and listed index-linked funds are not subject to this policy, as Nykredit does not hold shares in the companies and therefore cannot take active ownership.

Government bonds Nykredit's ambitions of sustainable investments also include government bond investments. Our investments are based on compliance with international law. Also, we believe that democracy and human rights may improve returns. Government bond investments may contribute positively to the development in a country, but this requires that investors are vigilant. Therefore, Nykredit's guidelines are based on three steps: 1. Exclusion of countries that are subject to financial transaction sanctions or sanctions against the leaders of specific countries. 2. Inclusion of democracy and human rights in the investment process. 3. The OECD country risk classification is used for continuous monitoring of investments. If a portfolio manager or an external manager wants to buy government bonds from a country in the lowest or second-lowest category of the OECD country risk classification, the portfolio manager or external manager must make a sustainability assessment of the investment. Nykredit's Sustainable Investment Committee will then decide, on the basis of the sustainability assessment, whether the investment is in compliance with Nykredit's policy. If not, the country is excluded.

Specialised products

Nykredit offers specialised products to customers that have another approach to responsible investments. As a minimum, all such products comply with Nykredit's sustainable investment policy.

Nykredit's Sustainable Investment Committee

Nykredit's Sustainable Investment Committee operates within the framework of Nykredit's sustainable investment policy. The Committee meets four times a year to decide on active ownership and exclusions, and to further integrate sustainability in the investment process.

Knowledge sharing and development

Sustainable and responsible investment is not an exact science. Consequently, part of our work in the area of sustainable investment is to understand new trends and share our knowledge, which we do in UNPRI, Dansif and through the direct contact with our customers.

Sustainable investment

UNPRI - Principles for sustainable investment

Nykredit has signed up to the six UN Principles for Responsible Investment (UNPRI). The principles constitute a set of common global guidelines for responsible investor conduct.

Nykredit incorporates environmental, social and corporate governance issues into its entire investment process.

Responsible Investment Transparency Report can be found on our website:

Corporate Governance

Corporate Governance in Nykredit

The Nykredit Group (hereinafter "Nykredit") carries on financial business through Nykredit Realkredit A/S and the wholly-owned subsidiaries Totalkredit A/S and Nykredit Bank A/S as well as the latter's wholly-owned subsidiary Nykredit Portefølje Administration A/S.

Nykredit Realkredit A/S is wholly owned by Nykredit Holding A/S, the shareholders of which are Foreningen Nykredit (89.8%), Foreningen Østifterne (3.25%), Industriens Fond (4.7%), and PRAS A/S (2.25%). The ultimate authority of Foreningen Nykredit is the Committee of Representatives, which is composed of up to 100 representatives who are elected by the borrowers and bondholders of Nykredit Realkredit A/S.

Owing to Nykredit's special ownership and corporate structure, Foreningen Nykredit, Nykredit Holding A/S and Nykredit Realkredit A/S have the same objectives and common interests.

Nykredit's shares are not listed on Nasdaq Copenhagen. Therefore, the Recommendations on Corporate Governance (hereinafter the "Recommendations"), last revised by the Committee on Corporate Governance in May 2013, are not directly applicable to Nykredit.

However, Nykredit decided already in 2002 that, given the adjustments following from the Group's special ownership and corporate structure, it should act as a listed company for external purposes, operating on sound business terms and taking into consideration the Recommendations.

The managerial code of conduct of November 2013 of the Danish Bankers Association integrate and supplement the Recommendations and apply to Nykredit Bank A/S as a bank. Nykredit has furthermore decided that all the financial companies of the Group must address and adhere to the code of conduct where relevant.

This implies that the financial companies of the Nykredit Group take into consideration both the Recommendations on Corporate Governance and the managerial code of conduct of the Danish Bankers Association and adhere to them where relevant.

To ensure suitable risk management across the Group and optimum resource utilisation, various overall objectives, policies, etc are determined at group level.

Owing to Nykredit's corporate structure, a number of decision-making and reporting processes, etc in Nykredit Bank A/S, Totalkredit A/S and Nykredit Portefølje Administration A/S have been adapted to the fact that the companies are wholly-owned subsidiaries.

The Recommendations as well as the code of conduct imply that the companies must explain how they address the recommendations, in accordance with the "comply-or-explain" principle, ie they may either comply with the Recommendations/code of conduct or opt not to comply and instead explain the reason why.

The report below is divided into a section about the Recommendations on Corporate Governance and a section about the managerial code of conduct. The report concerns all the financial companies of the Nykredit Group unless otherwise stated.

A. Report concerning Recommendations on Corporate Governance for the financial year 2015

Recommendation	Approach
<p>1.1.1. The Committee recommends that the board of directors ensure ongoing dialogue between the company and its shareholders in order for the shareholders to gain relevant insight into the company's potential and policies, and in order for the board of directors to be aware of the shareholders' views, interests and opinions on the company.</p>	<p>Nykredit complies with the recommendation. The members of the Board of Directors of Nykredit Holding A/S are appointed by the boards of directors of Foreningen Nykredit (main shareholder) and two out of the other three shareholders, and the Board of Directors of Nykredit Realkredit A/S is elected by Nykredit Holding A/S. The Board of Directors of Foreningen Nykredit is elected by and among the Committee of Representatives, which is composed of customers having loans with Nykredit Realkredit A/S, customers having loans with Totalkredit A/S who have become members of Foreningen Nykredit, customers of Nykredit Bank A/S with total facilities of at least DKK 50,000 and bondholders. It is customary at Nykredit that the members of the Board of Directors of Foreningen Nykredit are also members of the Boards of Directors of Nykredit Holding A/S and Nykredit Realkredit A/S. The small number of shareholders creates a good setting for an active dialogue between the members, owners and Group Management.</p>
<p>1.1.2. The Committee recommends that the board of directors adopt policies on the company's relationship with its stakeholders, including shareholders and other investors, and that the board ensures that the interests of the shareholders are respected in accordance with company policies.</p>	<p>Nykredit complies with the recommendation. Nykredit has adopted a policy on the Group's relationship with its stakeholders. Nykredit has furthermore laid down guidelines on its conduct in relation to its stakeholders both in and outside the Group. The guidelines include information on Nykredit's business concept, values and business objectives.</p> <p>Nykredit's business concept, Financial Sustainability, describes the values which have been at the core of the Company's activities since the formation of the first mortgage association, and which remain the historical foundation of the Company. In addition, Nykredit is dedicated to strengthening the Group's relations with its stakeholders, which includes efforts to gain more insight into stakeholder demands, expectations and interaction vis-à-vis Nykredit. One way of doing this is through Nykredit's non-financial report, "Nykredit – Engaging with Society", and a CR Factbook, which are published together with the Annual Report.</p>
<p>1.1.3. The Committee recommends that the company publish quarterly reports.</p>	<p>Nykredit complies with the recommendation.</p>

Recommendation	Approach
1.2.1. The Committee recommends that, when organising the company's general meeting, the board of directors plan the meeting to support active ownership.	Nykredit complies with the recommendation. The decision-making and reporting processes, etc in Nykredit Bank A/S, Totalkredit A/S and Nykredit Portefølje Administration A/S have been adapted to the fact that the companies are wholly-owned subsidiaries.
1.2.2. The Committee recommends that proxies granted for the general meeting allow shareholders to consider each individual item on the agenda.	Nykredit complies with the recommendation.
1.3.1. The Committee recommends that the company set up contingency procedures in the event of takeover bids from the time that the board of directors has reason to believe that a takeover bid will be made. According to such contingency procedures, the board of directors should not without the acceptance of the general meeting, attempt to counter the takeover bid by making decisions which in reality prevent the shareholders from deciding on the takeover bid themselves.	Nykredit does not comply with the recommendation. The recommendation is not relevant due to the ownership structure of the Nykredit Group.
2.1.1. The Committee recommends that at least once a year the board of directors take a position on the matters related to the board's performance of its responsibilities.	Nykredit complies with the recommendation. The decision-making and reporting processes, etc in Nykredit Bank A/S, Totalkredit A/S and Nykredit Portefølje Administration A/S have been adapted to the fact that the companies are wholly-owned subsidiaries.
2.1.2. The Committee recommends that at least once a year the board of directors take a position on the overall strategy of the company with a view to ensuring value creation in the company.	Nykredit complies with the recommendation. The decision-making and reporting processes, etc in Nykredit Bank A/S, Totalkredit A/S and Nykredit Portefølje Administration A/S have been adapted to the fact that the companies are wholly-owned subsidiaries.
2.1.3. The Committee recommends that the board of directors ensure that the company has a capital and share structure ensuring that the strategy and long-term value creation of the company are in the best interest of the shareholders and the company, and that the board of directors pre-sents this in the management commentary on the company's annual report and/or on the company's website.	Nykredit complies with the recommendation. Nykredit has arranged its capital structure so as to comply with regulatory requirements at any time and with a view to maintaining lending activities regardless of economic trends, while retaining a competitive rating. A report is given in the Annual Report and at www.nykredit.dk .

The decision-making and reporting processes, etc in Nykredit Bank A/S, Totalkredit A/S and Nykredit Portefølje Administration A/S have been adapted to the fact that the companies are wholly-owned subsidiaries.
2.1.5. The Committee recommends that at least once a year the board of directors discuss the composition of the executive board, as well as developments, risks and succession plans.	Nykredit complies with the recommendation. The decision-making and reporting processes, etc in Nykredit Bank A/S, Totalkredit A/S and Nykredit Portefølje Administration A/S have been adapted to the fact that the companies are wholly-owned subsidiaries.

The Committee recommends that once a year the board of directors discuss the company's activities to ensure relevant diversity at management levels, including setting specific goals and accounting for its objectives and progress made in achieving the objectives in the management commentary on the company's annual report and/or on the website of the company.	<p>Nykredit complies with the recommendation. Nykredit has adopted a diversity policy and has set targets for the proportion of female board members and female managers at all other managerial levels.</p> <p>The decision-making and reporting processes, etc in Nykredit Bank A/S, Totalkredit A/S and Nykredit Portefølje Administration A/S have been adapted to the fact that the companies are wholly-owned subsidiaries.</p> <p>The targets and current situation appear from the Annual Report, CR Factbook and the website www.nykredit.dk.</p>
2.2.1. The Committee recommends that the board of directors adopt policies on corporate social responsibility	<p>Nykredit complies with the recommendation. A policy on the corporate social responsibility of the Nykredit Group has been adopted. Nykredit's business concept describes Nykredit's stakeholder relations and Nykredit's commitment to social responsibility. In 2008 Nykredit adopted the UN Global Compact, a programme for sustainable conduct.</p> <p>Nykredit has also prepared a climate and environment strategy 2020.</p> <p>This issue is described in "Nykredit – Engaging with Society" and a CR Factbook.</p>
2.3.1. The Committee recommends appointing a vice-chairman of the board of directors who will assume the responsibilities of the chairman in the event of the chairman's absence, and who will also act as effective sparring partner for the chairman.	Nykredit complies with the recommendation.

Recommendation	Approach
<p>2.3.2. The Committee recommends ensuring that, if the board of directors, in exceptional cases, asks the chairman of the board of directors to perform special operating activities for the company, including briefly participating in the day-to-day management, a board resolution to that effect be passed to ensure that the board of directors maintains its independent, overall management and control function. Resolutions on the chairman's participation in day-to-day management and the expected duration hereof should be published in a company announcement.</p>	<p>Nykredit complies with the recommendation. The boards of directors of the financial subsidiary companies are composed of executive board members and executive staff of Nykredit who perform tasks for several group companies as part of their jobs.</p>
<p>3.1.1. The Committee recommends that the board of directors annually accounts for</p> <ul style="list-style-type: none"> • the skills it must have to best perform its tasks, • the composition of the board of directors, and • the special skills of each member. 	<p>Nykredit complies with the recommendation. The boards of directors are the supreme management bodies of the financial companies, which make decisions of a strategic and fundamental nature. The boards – and the Committee of Representatives of Foreningen Nykredit which serves as a recruitment base for the boards of directors of the Nykredit Group – are intended to be composed of a group of persons who, together, will serve the best interests of the Company with due regard for all its stakeholders.</p> <p>The boards of directors of Nykredit's financial companies should possess skills within the following areas, as well as special skills relevant to the activities of the individual company:</p> <ul style="list-style-type: none"> • Strategy • Knowledge of the mortgage and banking industry and the real estate area • Economics, finance and accounting • Capital markets, securities and funding • Politics, management and associations • Financial regulation • Corporate governance • Digitisation, IT and processes • Market conditions, customer relations and sales • Organisation/HR and processes • Credit matters. <p>The composition of the boards of directors and the special skills and experience of each board member are outlined at www.nykredit.dk and in the Management's Review in the Annual Report.</p>

Recommendation	Approach
<p>3.1.2. The Committee recommends that the selection and nomination of candidates for the board of directors be carried out through a thorough and transparent process approved by the overall board of directors. When assessing its composition and nominating new candidates, the board of directors must take into consideration the need for integration of new talent and diversity in relation to age, international experience and gender.</p>	<p>Nykredit complies with the recommendation. In addition to the professional skills mentioned in para 3.1.1, the composition and recruitment of board members take into account personal skills and diversity in terms of gender, age etc. The decision-making and reporting processes, etc in Nykredit Bank A/S, Totalkredit A/S and Nykredit Portefølje Administration A/S have been adapted to the fact that the companies are wholly-owned subsidiaries.</p>
<p>3.1.3. The Committee recommends that a description of the nominated candidates' qualifications, including information about the candidates'</p> <ul style="list-style-type: none"> • other executive functions, e.g. memberships in executive boards, boards of directors, and supervisory boards, including board committees in foreign enterprises, be accompanied by the notice convening the general meeting when election of members to the board of directors is on the agenda • demanding organisational tasks, and information • about whether candidates to the board of directors are considered independent. 	<p>Nykredit complies with the recommendation. The decision-making and reporting processes, etc in Nykredit Bank A/S, Totalkredit A/S and Nykredit Portefølje Administration A/S have been adapted to the fact that the companies are wholly-owned subsidiaries.</p>
<p>3.1.4. The Committee recommends that the company's articles of association stipulate a retirement age for members of the board of directors.</p>	<p>Nykredit does not comply with the recommendation. The articles of association of Nykredit's financial companies do not stipulate a retirement age for members of the boards of directors. In practice, a retirement age applies to the eight board members of Nykredit Realkredit A/S elected by the General Meeting, who are also members of the Board of Directors of Foreningen Nykredit, as the articles of association of Foreningen Nykredit stipulate a maximum age for election to the Committee of Representatives which implies that board members resign at the age of 66-70 years at the latest.</p>
<p>3.1.5. The Committee recommends that that members of the board of directors elected by the general meeting be up for election every year at the annual general meeting.</p>	<p>Nykredit complies with the recommendation.</p>

Recommendation	Approach
<p>3.2.1. The Committee recommends that at least half of the members of the board of directors elected by the general meeting be independent persons, in order for the board of directors to be able to act independently of special interests.</p> <p>To be considered independent, this person may not:</p> <ul style="list-style-type: none"> • be or within the past five years have been member of the executive board, or senior staff member in the company, a subsidiary undertaking or an associate, • within the past five years, have received larger emoluments from the company/group, a subsidiary undertaking or an associate in another capacity than as member of the board of directors, • represent the interests of a controlling shareholder, • within the past year, have had significant business relations (e.g. personal or indirectly as partner or employee, shareholder, customer, supplier or member of the executive management in companies with corresponding connection) with the company, a subsidiary undertaking or an associate, • be or within the past three years have been employed or partner at the external auditor, • have been chief executive in a company holding cross-memberships with the company, • have been member of the board of directors for more than 12 years, or • have been close relatives with persons who are 	<p>Nykredit complies with the recommendation.</p> <p>It is standard practice at Nykredit that the eight of the nine members of the Board of Directors of Foreningen Nykredit elected by the Committee of Representatives are also elected for the Boards of Directors of Nykredit Holding A/S and Nykredit Realkredit A/S and that the last two members of the Board of Directors of Nykredit Realkredit A/S elected by the General Meeting are also members of the Board of Directors of Nykredit Holding A/S. Percentage of female managers

Since 1996 Nykredit has focused on more women in management and has made an active contribution under the "Charter for more women in management" and "Operation Chain Reaction". Nykredit has set targets for the percentage of women on the boards of directors of Nykredit's financial companies and has developed a policy to raise the percentage of women at other management levels. In recent years Nykredit has recruited more female managers at the lower management levels. There is still room for improvement at the higher management levels and in some career paths. Nykredit has a structured programme to recruit more women for the top management level. The programme identifies and develops management talents at Nykredit, creating a pipeline of staff ready for their first managerial job as well as experienced management staff at executive level. The programme includes objective assessments supporting the identification of management talents with potential for the next rung on the career ladder – regardless of gender.

Nykredit's target for the percentage of female managers in executive-level management was 15% in 2015. The target was met with a percentage of 16%. Nykredit is aiming to increase this to 20% by 2018.

Nykredit's policy for women in management and other information on nykredit's efforts in this respect are available at nykredit.dk.
