

STATEMENT OF CONTINUED SUPPORT

As a construction company our mission is to provide high quality service, to meet our customers' needs efficiently, effectively, and at a competitive price. Hoff Entreprenader AB prides in staying abreast with current studies and partaking in the various trends and education within Swedish building and construction laws aimed at addressing sustainable and ethical practices in the industry. Hoff Entreprenader AB is a growing company whose aim is to uphold its position as a quality service provider, as a front-runner in sustainable environmental practices and in work ethics amongst our business partners and ourselves. These core values are long-term practices that will continue to be our driving force, and our motivation into a successful future.

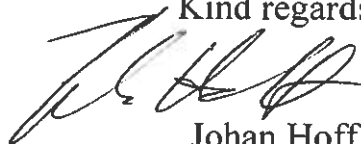

Our sustainability practices go beyond pricing and branding, we look beyond what is trending and superficial. We look at sustainable practices that ensure our customers wellbeing, that pose no risk to our employees, and which do not threaten our environment. Hoff Entreprenader AB opts for and provides goods and services of high quality and durability.

As a growing firm, we believe that our practices impact our development. We strive for growth and stability in our industry and society; consequently, this positive evolvement has been and is owed to our ethical business conduct, hard work, and commitment to clients, a good working environment and team spirit. We regard our position in the construction industry as an advantage that enables us to influence ethical practices within this industry – socially, economically, and environmentally. As a result Hoff Entreprenader AB continues to get various awards and recognition in this respect.

Hoff Entreprenader AB collaborates with suppliers, customers, Malmö community and other neighbouring communities, and relevant stakeholders to support, develop, and determine practices that positively impact our society. We believe that our involvement and commitment herein can strengthen our advancement toward a more sustainable future. This is why we wish to show our continued support of the UN Global Compact and its principles.

The communication on progress encompasses Hoff Entreprenader AB.
