Submission of our 9th COP Grace Period

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes

We are late in creating, sharing and posting our 9th COP report due to internal re-assignments of tasks. We aim to create a new layout of the COP report and enhance its content in order to improve its perception both internally, as well as externally. Furthermore we are relying on the feedback of our regional counterparts within the departments and would like include all their valuable contributions before submitting the COP.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by **15.04.2016** at the latest.

Sincerely yours

Diana Negrea
