

To our stakeholders:

I am pleased to confirm that Qualcomm Incorporated reaffirms our support of the Ten Principles of the United Nations Global Compact in the areas of human rights, labor, environment and anti-corruption.

In this annual Communication on Progress, we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, culture and daily operations. We also commit to share this information with our stakeholders using our primary channels of communication.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Mollenkopf".

Steve Mollenkopf
Chief Executive Officer

Our Commitment to the UN Global Compact Principles and Key Accomplishments

Qualcomm is committed to respecting human rights and avoiding complicity in any human rights abuse, throughout our company, our operations and our communities. Our efforts are informed by the [Universal Declaration of Human Rights](#) and the [United Nations \(UN\) Guiding Principles on Business and Human Rights](#). Our membership in the [Electronic Industry Citizenship Coalition \(EICC\)](#) and our participation in [BSR's Human Rights Working Group](#) and the [UN Global Compact](#) further augment our efforts. Working with other companies in these multi-industry groups provides us with an opportunity to share best practices and discuss challenges in developing companywide solutions to address human rights concerns.

Over the past year, we continued to make progress on this commitment. We conducted our annual legal and compliance risk assessment of our operations worldwide, which includes the consideration, review and prioritization of various company risks by a cross-functional group of key representatives from our legal, compliance, finance, human resources and internal audit teams. [Our Commitment to Human Rights](#) is a statement that details our commitment to respecting human rights and avoiding complicity in any human rights abuse throughout our company, our operations and our communities.

Our [2015 Qualcomm Sustainability Report](#) highlights our sustainability strategy, governance and progress. It includes our 2030 Sustainability Vision, which illustrates the direction of our sustainability programs for the next 15 years in key areas including human rights, inclusion and diversity, ethical governance, responsible supply chain management and environmental impacts across our value chain. In addition, our [sustainability website](#) features detailed information about our various programs on human rights, labor, the environment and anti-corruption, among other sustainability topics, and provides opportunities for [our stakeholders](#) to contact us directly. We also published our new [Sustainability Policy](#), which articulates our sustainability mission and overarching commitments to innovate responsibly.

[The Qualcomm Way: Our Code of Business Conduct](#) serves as a reference guide to help us navigate the ethical and legal situations we face on a daily basis and sets forth the behaviors expected of each employee. It highlights the laws and regulations employees must know and follow, and it describes our common responsibilities—to our customers and business partners, to our stockholders, to our company and to one another. It covers a wide range of topics, including anti-corruption, conflicts of interest, proper record-keeping, workplace safety and security, import-export controls, ethical selection of suppliers, human rights, our environmental responsibility and more. We provide The Qualcomm Way: Our Code of Business Conduct training to all employees worldwide and require them to acknowledge that they've read, understand and will comply with this key overarching Policy. We also offer additional live trainings on The Qualcomm Way as needed.

Our internal website makes it easy for employees worldwide to access country-specific ethics policies and frequently asked questions. In keeping with our open-door culture, each page of the site also invites employees to ask questions or raise concerns, with the option of doing so in-person, via email or via [our Business Conduct Hotline](#), which is available 24 hours a day and can be used anonymously where permitted by law. We respond to reports of misconduct as quickly and as confidentially as possible.

Since its inception in 2006, [Qualcomm® Wireless Reach™](#) has collaborated with 625 different organizations on more than 100 programs in over 40 countries—benefitting over 8 million people globally. These advanced wireless programs strengthen economic and social development with a focus on education, entrepreneurship, health care, the environment and public safety. To promote its long-term success, Wireless Reach is aligned with our broader business goals as well as global government agendas, including the newly adopted [UN Sustainable Development Goals](#).

We were proud to receive a 100 percent score on the [Human Rights Campaign Corporate Equality Index](#) in 2015 and 2016. Information about our other awards related to the UN Global Compact Principles is available [here](#).

Our policies, implementation efforts and outcomes related to the Ten Principles of the UN Global Compact for the past year are detailed below. For more information on Qualcomm's commitments, please contact humanrights@qualcomm.com.
