Content

For information gathering and quantification, BBVA Bancomer uses an internal BBVA software, which allows matching local and global data.

The Investor Relations Department and the Corporate Responsibility and Reputation Department are responsible for preparing the Annual Report.

Standards

The most recognized international standards have been followed in preparing this Report. GRI, AA1000 and the Global Compact.

We report in accordance with the G4 Guidelines of the Global Reporting Initiative, in its comprehensive option.

We use the set of AA1000 which helps us ensure that the report upholds the principles of inclusiveness, materiality and responsiveness, so as to ensure greater accountability with our stakeholders.

Finally, we work with the Global Compact of the United Nations to present this report as an advanced Communication on Progress.

External Assurance

The BBVA Bancomer 2015 Annual Report has undergone third-party assurance, in this case by Deloitte. Also, it has the GRI Materiality Disclosures Service.

Group Profile

Corporate Philosophy

Our Mission

- Generate trust by providing a more extensive and better service for our customers with transparency and integrity, and always offering the highest quality products and services.
- Provide our collaborators with the best conditions to develop fully.
- Be solvent and offer attractive returns to our shareholders.
- Support social welfare as an outcome of business activity.

Our Vision

We work for a better future for people.

This vision will always be relevant. It is a constant guide in everything the bank does. That is why the bank's day-to-day activity is governed by the following corporate principles:

Corporate Principles

Our seven corporate principles are:

1. The customer as the center of our business.
2. Creating value for our shareholders as a result of our activity.
3. Teamwork as a creator of value.
4. Management style as the driver of enthusiasm.
5. Ethical behavior and personal and professional integrity as a way of understanding and performing our activities.
6. Innovation as a driver of progress.
7. Corporate social responsibility and commitment to development.

Corporate Governance

Corporate Governance System

The policies and principles that make up the Corporate Governance System for the BBVA Group are established in the Board Regulations, which govern the internal structure and operation of the Board and its Commissions, as well as the rights and obligations of the Board Members.

Further details about the structure and function of the BBVA Corporate Governance model can be found in the Corporate Governance section at www.bbva.com.

The Board of Directors of Grupo Financiero BBVA Bancomer is composed of 20 Directors, from which 8 are independent. It is made up by five specific commissions: An Executive Committee, an Audit and Compliance Committee, an Appointments Committee, a Remuneration Committee and a Risk Committee.

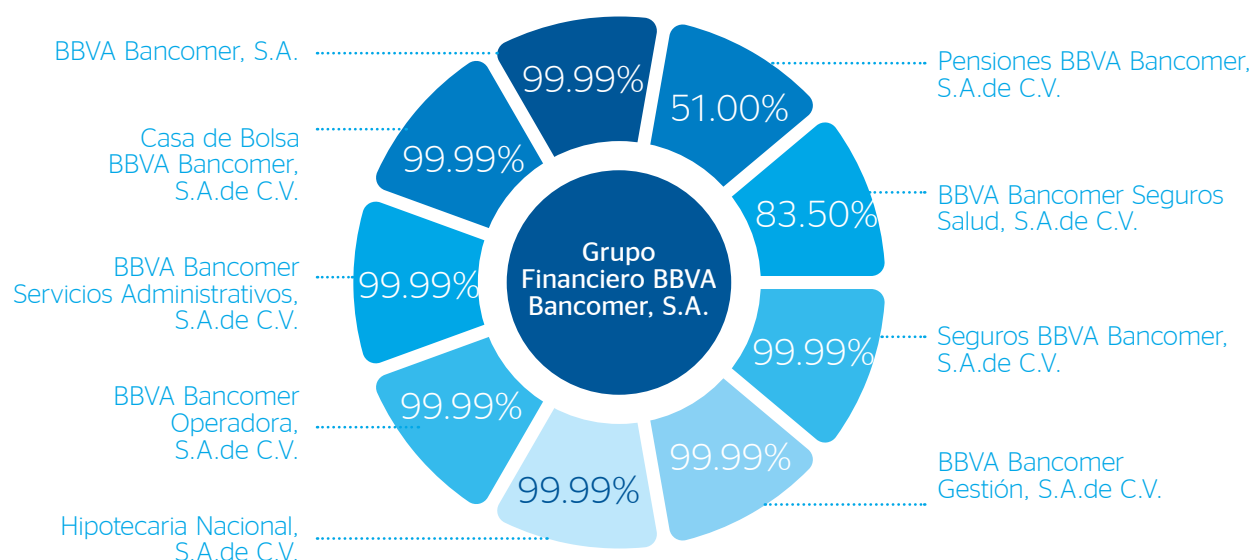

As compensation for the performance of their duties — after attending each meeting of the Board — both directors and statutory auditors of the Company receive the amount obtained by multiplying the price of two \$50 pesos gold bullion coin (called “Centenario”) by 1.42857.

Further details on the structure and functioning of the Board of Directors of Grupo Financiero BBVA Bancomer, S.A. DE C.V. can be found in the Information for Investors/Regulatory Information section at www.bancomer.com.

CRR Governance

The committee in charge of making decisions on environmental and social issues is the Responsible Business Committee, which main purpose is to promote and monitor the company's responsible business plan. It is chaired by the CEO of BBVA Bancomer and composed of nine Deputy Directors, eight Area Directors, with the CRR Director serving as coordinator, who in turn liaises with the CRR area of the BBVA Group. This committee meets up four times a year on a quarterly basis. In 2015, due to internal changes, only one session was held.

Compliance

The compliance system of the Group is one of the foundations on which BBVA Bancomer strengthens the institutional commitment to conduct all its activities and businesses in accordance with strict codes of ethical behavior.

The compliance function, in line with the principles established by the Bank for International Settlements (BIS) and with the European standard Markets in Financial Instruments Directive (MiFID), continues to articulate its activity around the promotion of policies and procedures, dissemination and training on compliance, and the identification, assessment and mitigation of potential compliance risk, such as those affecting the following issues:

- Market behavior
- Handling of conflicts of interest
- Prevention of money laundering and terrorist financing
- Personal data protection

Code of Conduct

BBVA Bancomer has a new Code of Conduct, approved by the Board of Directors of Grupo Financiero BBVA Bancomer on September 23, 2015. The Code is mandatory for all members of the Group; it provides specific behavior patterns consistent with our corporate principles.

BBVA Bancomer promotes respect for the dignity and rights of people in all their relationships; this commitment is reflected in the BBVA Commitment to Human Rights document.

The behavior patterns to treat customers, Group members, the Company itself and the society are determined within five chapters. Using a clear and direct language, its content is adapted to modern requirements, including new concepts on financial inclusion, presence in social networks, rules on sanctions, seizures, and anti-boycott regulations, among others.

In accordance with the principles of the Global Compact, the Code contains an anti-corruption policy stating that BBVA tolerates no form of corruption or bribery whatsoever in any of its activities and, on the other hand, reiterates a commitment to respect human rights thus promoting respect for human dignity and fundamental rights thereof.

As part of the update of our Code of Conduct, we changed the name of the reporting system of incidents from “Actitud Responsable” (Responsible Attitude) to “Canal de Denuncia” (Whistleblower Channel), and this process is recognized as an essential part of the system of compliance.

Firstly, all members of BBVA Bancomer should consult their immediate supervisors on integrity or enforcement issues of the Code of Conduct. In addition, we have the following communication channels that all employees can use to make comments or seek advice on enforcement issues of the Code of Conduct and supplementary regulations thereof:

HPD (internal system): “Canal de Denuncia”

E-mail: canaldenuncia.mexico.mx@bbva.com

Telephone: 55 5621-4188 o al 01-800-001-0011

Global e-mail: canaldenuncia@bbva.com

Global phone: (34) 91 537 7222

BBVA Bancomer promotes respect for the dignity and rights of people in all their relationships; this commitment is reflected in the BBVA Commitment to Human Rights document.

Legal Compliance

As of December 31, 2015, BBVA Bancomer had no fines or sanctions on record for failure to comply with laws and regulations on environmental matters, performance within society that may be of any significance with regard to the company's net worth, financial standing, or consolidated results. Likewise, there were no legal suits detected relating to acts of discrimination or violation of human rights, or significant legal complaints with regard to working conditions.

International Undertakings

At BBVA Bancomer we continue to support the following initiatives:

- The United Nations Global Compact
- The Financial Initiative of the United Nations Environment Programme
- The Equator Principles
- The United Nations Principles for Responsible Investment

We are part of the following associations:

- Asociación de Bancos de México (Mexican Bank Association) (ABM)
- Asociación de Desarrollos Inmobiliarios (Property Development Association) (ADI)
- Asociación Mexicana de AFORES (Mexican Association of AFORES) (AMAFORE)
- Asociación Mexicana de Internet (Mexican Internet Association) (AMIPCI)
- Asociación Mexicana de Intermediarios Bursátiles (Mexican Stock Broker Association) (AMIB)
- Mexican Association of Insurance Institutions (Asociación Mexicana de Instituciones de Seguros) (AMIS)
- Bolsa Mexicana de Valores (Mexican Securities Market) (BMV)
- Cámara Nacional de la Industria de la Vivienda (National Chamber of the Housing Industry) (CANADEVI)

2015 Developments

- The dissemination of the new Code of Conduct was made through various internal means. As part of the strategy, the Senior Management of the Group was involved in the dissemination process: the President of the BBVA Group, the Global Legal & Compliance Director and the Chairman of the BBVA Bancomer's Board sent messages emphasizing such new Code and positioning ethics and integrity as the way to understand and develop our activity in the company.
- We also spread the Code of Conduct among our suppliers biennially, inviting them via e-mail to read our code and stick to it, as well as our Acceptance of Gifts Policy and our Conflict of Interest Prevention Policy. From 2010 to date we have sent these documents to over 5,000 suppliers.
- Various training activities related to the Code of Conduct were developed. The Taller de integridad en los negocios (Business Integrity Workshop) was still taught among Office Managers of the commercial network. A total of 2,857 employees participated directly in both programs. Additionally, specific content of integrity was included in the various leadership and management development programs of the Group.
- The main types of cases reported in 2015 through the whistleblower channel were:
 - Management style 24%
 - Fraud 21%
 - Respect for the dignity of people 14%

913 cases were resolved, including reports resolved in previous years, and 456 reports in process.

As of October 2015, 49 human rights cases out of 60 were resolved..

As of October 2015, 11 discrimination cases out of 12 were resolved. People are penalized depending on the seriousness of their misconduct.

Business Model

Grupo Financiero BBVA Bancomer (GFBB) is a world-class group offering a wide range of services ranging from simple loans to international structured products.

The main subsidiary of GFBB is the bank (BBVA Bancomer)—a universal bank serving customers differently through specialized products and services. The bank is aware that much of business success depends on customer satisfaction. Therefore, it is constantly changing to be able to offer the best banking services in Mexico and maintain a long-term relationship with customers.

The business model is based on serving differently and individually to each customer segments through specialized networks of specialized agents enabling a quality service. The model is also based on an efficient distribution network and a high degree of capillarity, key to providing easy and safe access to financial services. And finally, it is a business model that focuses on technology decisively and allows undertaking major investments on transformation and innovation projects.

This model has demonstrated recurrence on BBVA Bancomer results and strength through a differential performance characterized by a clear risk control philosophy and with the purpose of maintaining long-term profitability.

Thus, BBVA Bancomer has consolidated its leading position in Mexico to deal with future growth.

Materiality and Dialogue with Stakeholders

At BBVA Bancomer we have established dialogue mechanisms that allow us to meet the expectations of our stakeholders – shareholders, customers, employees, suppliers, regulatory entities and society – so that we can strengthen our relationship with them.

Materiality Analysis

Since 2009, the Corporate Responsibility and Reputation Department prepares a materiality study to identify issues relevant to the BBVA Bancomer responsible business strategy.

Said study has been developed over time both in form and in substance, which has allowed us to have more detailed information on the expectations of the main stakeholders of the company.

Findings in the previous materiality analyses have highlighted not having a significant variation from one year to another. Therefore, it was decided to perform an analysis with a broader scope every two years and, in the intervening years, to analyze key stakeholders deeply.

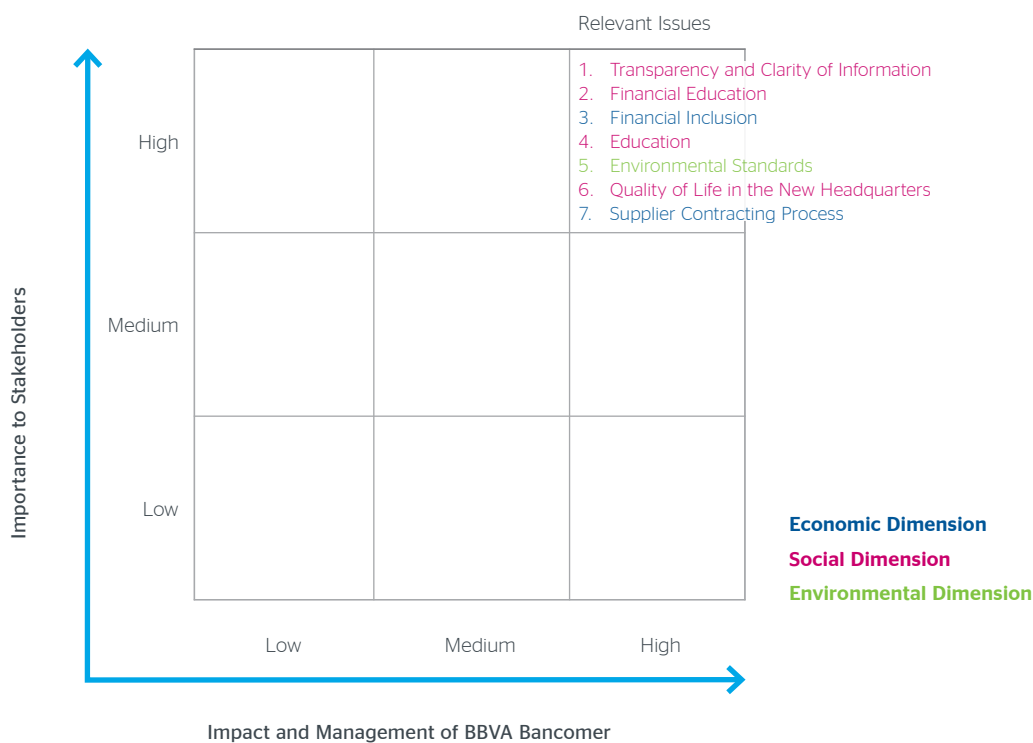

To complement the last year study extensively, this year we analyzed in depth two key stakeholders groups: employees and suppliers; through the following consultation mechanisms:

- Corporate office employees: focus group
- Branch offices employees: online survey
- Large suppliers: depth interviews
- Medium and small suppliers: focus group

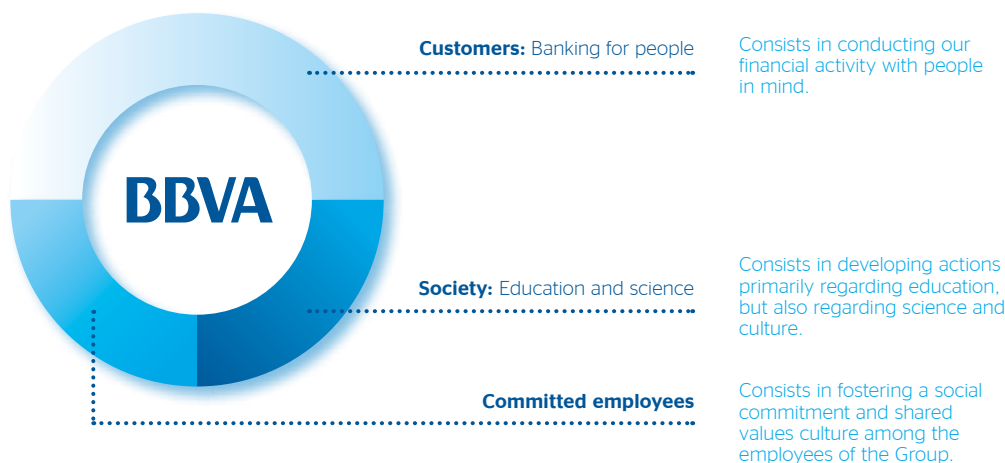

2015 Relevant Issues

| Issue | Impacted stakeholders group: | Scope | BBVA Bancomer Initiatives |
|-----------------------------------------|--------------------------------|------------------------------------|-------------------------------------------------------|
| Transparency and clarity of information | Customers Regulatory bodies | BBVA Bancomer Group | TCR Communication |

| Quality of Life in the New Headquarters | Employees | BBVA Bancomer headquarters | Staff |
| Supplier Contracting Process | Suppliers | BBVA Bancomer Group Value Chain | Suppliers |

2015 Materiality Matrix

Responsible Business Strategy

Responsible Business Plan

According to the transformation of the BBVA Bancomer Group, in the area of corporate responsibility we are also evolving the way we do business responsibly.

Based on the Corporate Social Responsibility Policy, the responsible business Plan revolves around three interdependent axes defining its strategic framework:

The three priorities for the 2013-2015 period of the responsible business Plan are:

- TCR (transparent, clear and responsible) communication
- Education: Financial education and entrepreneurship support – Momentum Project
- Products with high social impact: Financial inclusion, Mutual Improvement and B+Educa Fund

TCR (transparent, clear and responsible) communication

Transparency and clarity are essential to help people always understand the products they hire. Any communication with the customer, any document or any contract must be clear and transparent. To achieve this, the bank is developing sheets to facilitate the decision-making when hiring products, as well as new contracts that shall be worded keeping the customer in mind, i.e. with a simple and exact language.

2015 Developments

- This year we published 52 brochures in TCR and updated 201.
- We finished four draft contracts in TCR: Credit Card, Consumer, Framework Contract National Currency and Single Digital Contract.
- The brochures and contracts published in TCR represent 95% of total sales of the bank.

Financial Education

Strengthening financial education is the strategic priority of the company's social programs, through:

- Financial culture to prepare children and young people for their future.
- Financial education for adults that, together with the Communication TCR, is the other piece for the customer to make informed decisions.
- Financial training and business skills for SMEs, which play an important role in the development of Mexico's economic and business fabric.

2015 Developments

Participation in the *Adelante con tu futuro* Program

| Year | 2013 | 2014 | 2015 |
|---------------------|---------|---------|---------|
| Participants | 229,056 | 312,540 | 338,662 |
| Workshops Conducted | 824,497 | 905,871 | 938,691 |

Includes participants of Valores de futuro.

Participation Data of the Valores de futuro Program

| Year | 2014 | 2015 |
|--------------------------|--------|--------|
| Number of students | 51,122 | 16,523 |
| Number of workshops | 81,380 | 16,523 |
| Number of volunteers | 123 | 115 |
| Number of school centers | ND | 31 |

- We established links with the business areas of the bank to encourage financial education in different segments:
 - For customers in the Express, Banking, and Personal segments: Vida Bancomer points were awarded after taking the credit card workshop.
 - For customers with the mortgage loan product: A monthly installment discount of the life insurance was deducted after taking the mortgage loan workshop.
 - For SMEs customers: A discount of 1% was made to the rate of their loans after taking three workshops for small and medium-sized enterprises.
 - For customers of the Personal segment: Emails were sent with tips to properly manage the mortgage loan and the credit card.
 - For account managers of the segment: The Banking segment was supported through the development of training courses, focused on a responsible sales process suited to the needs of customers.
 - For customers of the bank's SME segment: An online certification course was developed together with the Anáhuac University, and specialized courses were taught together with the IPADE Business School.
- We designed and updated four workshops that make up the standard package of financial education, with new content and updated based on three axes: regulatory, product, and market aspects.
- We developed a new workshop with editorial design and multimedia activities based on new technologies, with multi-platform developments to ensure that the content, calculators, and interactive exercises can be used on any computer equipment, tablets, smartphones, and other devices.
- We focused our efforts on 3 of the 6 delivery platforms of the Valores de futuro (Future Values) program – KidZania, MIDE and Corporate Volunteering – with 568,995 recreational activities and workshops in 2015.

Momentum Project supports innovative projects, promoting and spreading the activity and impact of entrepreneurship with a priority to create social and environmental value, but that also achieve to generate economic value.

Entrepreneur Support (*Momentum Project*)

Two years ago, the Momentum Project, a global BBVA Group initiative, was launched in Mexico to support social entrepreneurship. In partnership with New Ventures Mexico and EGADE Business School of the Monterrey Institute of Technology, and with a special collaboration of Pricewaterhouse Coopers, the mission of this initiative is to contribute to the development of social entrepreneurship in Mexico, implementing a supporting program and ecosystem so that most promising social entrepreneurship can consolidate themselves, grow, and scale their impact.

Momentum Project supports innovative projects, promoting and spreading the activity and impact of entrepreneurship with a priority to create social and environmental value, but that also achieve to generate economic value.

2015 Developments

- In its 3rd edition, Momentum Project had 212 participants advised by 8 retired mentors and 19 active mentors.
- The Social Investment Day was celebrated, where the 10 selected projects presented their business plan: 3P Technik México, Apinova, Biosolutions, Clínicas del Azúcar, Inventive power, Ipoderac, Lorean Energy, Naturelo, Renovapack, and SmartFish.
- 10 loans were authorized in the amount of MXN\$21 million.

Products with High Social Impact

Financial products with high social impact are those in which differential social attributes are integrated. Products fostering growth, financial inclusion, and supporting people with special needs.

Financial Inclusion

BBVA Bancomer works to help people in the neediest segments of the population may have access to financial services designed responsibly and tailored to their needs to improve their lives and those of their families.

The banking strategy of BBVA Bancomer is to develop a range of financial products and services in agreement with the identified needs, based on three characteristics: low cost, channels other than bank branches, and innovation in technology platforms.

2015 Developments

- We have consolidated our product range through 26,312 banking correspondents and 72,134 customers of the express account and mobile banking.
- This year we launched the following products and services:
 - Mobile POS: POS terminal to be used with a mobile device (cell phone or tablet) for small businesses with low turnover; very easy operation.
 - Adelanto Express (Express Advance): minor loans for payroll customers, with a low cost, obtained through self-service devices.
 - Seguro Express (Express Insurance): low-cost insurance against basic risks and suitable coverage.

- ATM's recicladores de efectivo (ATM Cash Recyclers): self-service device that recycles money in order to have a balance and break the cycle of handling cash.
- Dinero móvil masivo (Massive Mobile Money): a new option for mass payments to individuals, generating unique passwords sent via SMS to each beneficiary.
- As for US-Mexico remittances, BTS (Bancomer Transfer Services) processed 26.1 million transactions in the amount of \$7.59 billion dollars.

Mutual Improvement

This model is applied in housing developments where mortgage loans were placed, which now are badly damaged and that, to achieve recovery, it is necessary to be intervened by applying a comprehensive rescue in three parallel sections:

| Comprehensive Rescue | |
|----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Financial Rescue | Through solution products for mortgages. |
| Social Rescue | Through the neighborhood organization, by neighborhood promoters working directly with the community and, additionally, by involving local authorities such as the municipality, water authority, universities, etc., thus reconstructing the social fabric. |
| Physical Rescue | Through investment in physical improvements requested by the community and conditional upon full payment (mortgage, water, property taxes and maintenance fees). |

2015 Developments

We have been applying the Mutual Improvement model for 14 months in Tijuana, B.C. with the following achievements to date:

- Financial Rescue
 - Curbing financial deterioration.
 - Restructuring of 115 active loans.
- Social Rescue
 - Constitution of 85 Neighborhood Committees registered before the Municipality.
 - Rebuilding the social fabric.
 - Delivery of 570 adult financial education workshops.
 - Delivery of 388 Valores de futuro children workshops.
- Physical Rescue
 - Investment in physical improvements to the housing development consisting of refurbishment of 7 public parks and lighting of 32 housing complexes with 2,064 dwellings.
 - Refurbishment by the Municipality of Tijuana of public services such as lighting, paving, reforestation, etc.

B+Educa Fund

This investment fund allows investors to earn high yields while contributing to Mexican education.

Its purpose is to donate 25% of yield received within the month and grant scholarships to young people with high levels of academic achievement through the Becas de integración “Por los que se quedan” (“For Those Who Are Left Behind”) program offered by the BBVA Bancomer Foundation.

2015 Developments

B+Educa Fund

| | 2013 | 2014 | 2015 |
|-------------------------------------|------------|------------|------------|
| Total donations (millions of pesos) | 81'084,090 | 75'721,167 | 82'127,003 |
| Investors | 28,202 | 39,112 | 39,923 |

Scope: BBVA Bancomer

Social, Environmental, and Reputational Risk

BBVA Bancomer — as a financial institution — has direct impact on the environment and society, through the use of natural resources and the relationship with its stakeholders, and indirect impact through our lending activity and projects we fund. These impacts result in direct, indirect and reputational risks.

These non-financial risks can affect the creditworthiness of borrowers or of the projects funded and, therefore, the quality of the assumed risk and, ultimately, the loan repayment.

To manage these risks, BBVA Bancomer takes into account environmental, social and reputational aspects, as well as traditional financial variables. The integration of such aspects in risk management is consistent with the principle of prudence that governs BBVA Bancomer's activity and it is materialized on different lines of action.

Responsible Lending

In our risk management system we include the “ESG” variables along with other aspects traditionally managed. ESG stands for environmental, social and corporate governance, and aims to manage non-financial risks that could affect the creditworthiness of borrowers or financed projects, and that could jeopardize debt repayment.

Ecorating

We have designed a tool called Ecorating, which will allow us to assess companies' risk portfolio from an environmental perspective. Each customer is assigned an environmental risk level based on a combination of several factors: location, polluting emissions, resource consumption, company environment susceptible to direct or indirect impact by the company, legislative pressure, and supervision of environmental considerations, to mention just some of the more significant factors.

The integration of such aspects in risk management is consistent with the principle of prudence that governs BBVA Bancomer's activity

Its objectives are:

1. Identifying the level of environmental and social risk of a customer or prospect individually.
2. Establishing controls that minimize the potential environmental impacts of the customer on the environment.

The Ecorating consists of a questionnaire that includes six questions on the following topics:

- Permits for drinking water service
- Permits or records of land use
- Permits for electricity supply
- Special permits (licenses) issued by the state or municipality
- Administrative penalties relating to environmental issues
- Environmental Management System (ISO 14001 certification)

The Equator Principles

Since 2004, the BBVA Group has adhered to the Equator Principles (EPs), a set of standards promoted by the World Bank, through its affiliate the International Financial Corporation (IFC), in order to determine, evaluate, and manage social and environmental risks in project financing.

Based on the IFC's Policy and Performance Standards on Social and Environmental Sustainability, and on the World Bank's General Environmental, Health, and Safety Guidelines, The EPs are applied to financing of new projects that total 10 million dollars or more, to the expansion of projects that generate significant impacts, and to advisory services for project financing. At BBVA Bancomer, we do not apply this minimum limit, instead choosing to apply the EPs to transactions of any amount, regardless of the ultimate allocation of funds—including not only new projects or significant expansions, but also project construction, acquisition, refinancing, etc.

EP analysis is included in our internal project structuring and approval processes. This process includes social and environmental due diligence, which begins with assignment to one of three categories (A, B, or C), which, based on the IFC categorization criteria, reflect the level of environmental and social risk of the project.

To approve any project financing, in addition to preliminary categorization, the file must include an EP compliance report, reviewed by the unit responsible for approval.

Since 2004, the BBVA Group has adhered to the Equator Principles (EPs), a set of standards promoted by the World Bank, through its affiliate the International Financial Corporation (IFC), in order to determine, evaluate, and manage social and environmental risks in project financing.

2015 Developments

Operations Financed Pursuant to the Equator Principles in Mexico, 2015

| Category (1) | Number of Operations | Total Amount Financed by BBVA Bancomer (in millions of pesos) (MXN) |
|--------------|----------------------|---------------------------------------------------------------------|
| A | 1 | \$ 4,959.00 |
| B | 3 | \$ 4,132.50 |
| C | 0 | 0 |
| Total | 4 | \$ 9,091.50 |

(1) - Category A: Projects with a significant negative impact that may affect an area greater than that which the project occupies.

- Category B: Projects with a minor negative impact on human populations or in areas of environmental importance.

- Category C: Projects with very little or no environmental impact.

Scope: BBVA Bancomer

Preventing Money Laundering and Terrorism Financing

The prevention of money laundering and the financing of terrorist activities is, primarily, a priority OBJECTIVE that the BBVA Group associates with its commitment to favor and uphold the wellbeing of the different social environments in which it pursues its operations.

For the BBVA Group to prevent products and services are used for illegal purposes is an essential requirement for maintaining confidence.

To achieve this objective, the BBVA Group, as a global financial group with branches and subsidiaries operating in many countries, has a model of risk management to prevent money laundering and financing of terrorist activities including the following elements:

- An organizational structure that has the necessary resources to manage this function and a clear allocation of responsibilities for each entity.
- A regulatory body that determines the obligations and cautions in this field; of particular importance are those relating to the Know Your Customer (KYC) measures.
- The implementation of customer monitoring measures, designed to identify potential suspicious activities and ensure their reporting to the competent authorities.
- The implementation of employees' communication and training plans. These plans are designed according to the level of exposure of each group to the risk of money laundering and its purpose is to maintain an appropriate level of awareness and to provide the necessary capabilities to comply with applicable regulations.
- The ongoing communication between the Head Office and all branches and subsidiaries of the BBVA Group, so that continuous monitoring and supervision in this area may be ensure.
- Finally, the need for an independent review, in order to independently verify and confirm the implementation and effectiveness of other elements of the model.

For the BBVA Group to prevent products and services are used for illegal purposes is an essential requirement for maintaining confidence.

Report from the Chairman of the Board of Directors

Dear friends,

2015 was a transformation year critical for the Mexican economy, the banking sector, and BBVA Bancomer.

The implementation of structural reforms began, which in the coming years will make Mexican economy more productive and competitive. For example, in the energy sector bidding rounds “0” and “1” were performed successfully. In telecommunications, foreign investment participation was consolidated, and in education, teachers were evaluated. These reforms transform significantly hydrocarbon production models, strengthen competition in telecommunications, and provide a firm foundation for improving the quality of education in Mexico. As a whole, the implementation of the 13 approved reforms will raise the economy’s potential growth and thus the ability to generate more and better jobs. Undoubtedly, the most important effects of the reforms are yet to come, but the progress attained so far is very important.

“...As for the banking sector, 2015 can also stand out as the year of greatest dynamism within a cycle of loan growth that began more than 15 years ago, confirming that today banks in Mexico are going through their best moment in history...”

As for the banking sector, 2015 can also stand out as the year of greatest dynamism within a cycle of loan growth that began more than 15 years ago, confirming that today banks in Mexico are going through their best moment in history. Bank loans delivered a double-digit growth in all its items, while an adequate risk management also allowed reducing, in all items, NPA ratios. In addition, all banking institutions met the Basel III capitalization rules in advance and in full, so that the bank is in a very solid and solvent situation.

Again, in this context, BBVA Bancomer made 2015 a year full of outstanding results. I must warmly congratulate Mr. Eduardo Osuna, CEO and Vice-Chairman of the Board of BBVA Bancomer, all his management team, and all employees of our institution for their passion and leadership in achieving these results.

During 2015, BBVA Bancomer's total loans increased 12%, where finance for SMEs performed outstandingly, with an annual increase of 24% compared to the previous year; corporate and medium-sized enterprises loans increased 17%; consumer finance, including payroll, personal and auto loans, amounted to 12%; and finally, mortgage loans grew 5% more than the previous year. Lending has been accompanied by good asset quality indicators.

As for customer deposits, which include demand deposits, time deposits, and bank bonds, there was an annual increase of 19%. The strength resulted from demand deposits, with an annual increase of 18%, the time with an annual increase of 21%.

Dear friends, at BBVA Bancomer we share the vision of working for a better future for people. We are aware that our business activity has a very positive impact on the lives of individuals, on companies, and on Mexican society. We are a Responsible Business. We intend to bring people the best of our services; however, we integrate social, environmental, and ethical issues that concern society into our daily activity.

In 2015, we reaffirmed our principle of integrity as a way of understanding and developing our business with the launch of the new “Code of Conduct,” which determines behavior patterns to conduct ourselves with customers, members of the Group, the company and society. This new Code seeks that our behavior is adjusted according to the letter and spirit of the law; with the firm commitment that the Code's values and principles are applied to our daily work. Its compliance will strengthen the Group's reputation and the trust customers, shareholders, and society place in us.

“...Confident that education is the best way to strengthen the country, in 2015, we kept working so that more children and young people can complete their junior high school education.”

In 2015, we completed the 2013-2015 period of our “Responsible Business Plan” with excellent results. With our TCR (Transparent, Clear and Responsible) Communication program we implemented the greatest possible simplicity to the communication of our products and services to allow our customers an informed decision-making.

For some eight years now, our “Adelante con tu futuro” (Get Ahead on Your Future) program of financial education has been developing skills in individuals and companies promoting: consistent savers, responsible borrowers, and cautious investors. At the end of 2015, the Adelante con tu futuro program has already benefited 1.7 million people through 4.8 million educational activities, including workshops, conferences, and specialized courses for adults and children.

In 2015, we also supported social entrepreneurship with our “Momentum Project” initiative, which this year was its 3rd edition, with the participation of 212 entrepreneurs advised by 26 mentors. We are very proud to be part of this youth movement seeking to create social and environmental value with innovative proposals, to whom we support with funding.

Confident that education is the best way to strengthen the country, in 2015, we kept working so that more children and young people can complete their junior high school education. The becas de integración “Por los que se quedan” (“For Those Who Are Left Behind” scholarships) expanded their coverage to two additional states: Aguascalientes and Baja California, with the purpose of covering 22 states and 167 municipalities throughout Mexico. From 2006 to date we have benefited 49,791 junior high school students. Moreover, the “Adelante” scholarships to continue and conclude high school have benefited 10,000 youngsters through three generations.

Year 2015 also marked the beginning of our moving to the new headquarters: BBVA Bancomer Tower, Parques BBVA Bancomer, and the Data Processing Center (CPD, in Spanish).

Our commitment to environmental care is embodied in the “Environmental Eco-efficiency Plan,” where one of the goals for this 2013-2015 period was that 33% of employees were located in buildings with environmental certification. This year, the staff moved to the new headquarters, which have the highest LEED (Leadership in Energy and Environmental Design) certification, which will imply a considerable savings in energy and water and improvements in recycling and resource management.

Through these actions, we reaffirm our commitment to the “United Nations Global Compact,” to which BBVA Bancomer adhered in 2003 and which principles have been incorporated in this Report as part of the “Communications on Progress” for this period.

The foregoing enabled BBVA Bancomer to be named “Best Bank in Mexico in 2015” by Global Finance and The Banker.

I wish to invite you all to support and monitor these initiatives that will certainly strengthen the positive impact BBVA Bancomer has achieved into Mexican society.

Thank you,

Luis Robles Miaja

Chairman of the Board of Directors

Report from the Chairman of the Board of Directors and CEO

Business Development, 2015 Financial Year

2015 implied important challenges for Mexico and for the banking sector. This year, Mexico's economic growth has not been as encouraging as expected. There was a sharp peso devaluation stemming from low oil prices. Likewise, the low global economic dynamism and a lower level of exports also had an adverse impact.

Nevertheless, domestic demand showed a more positive trend. Retail sales showed a growing trend, a larger number of formal jobs were created, inflation was at record lows which in turn led to an increase in real wages and, thus, domestic consumption has been boosted.

However, BBVA Bancomer registered a positive trend in commercial activity, comparing favorably with the market as a whole as it returned a 23% share in lending and 23% in deposits (demand + time), according to data from the National Banking and Securities Commission (CNBV in Spanish) published in December 2015.

“...BBVA Bancomer registered a positive trend in commercial activity, comparing favorably with the market as a whole as it returned a 23% share in lending and 23% in deposits (demand + time), according to data from the National Banking and Securities Commission (CNBV in Spanish) published in December 2015.”

Total loans ended the year in MXN\$882.66 billion, equivalent to an annual increase of 12%. The greatest dynamism was detected in the commercial loans, which increased 15% throughout the year. In commercial lending, the most relevant item is SMEs funding increasing, which was 24% higher than the previous year; while for corporate and medium-sized enterprises loans an annual double-digit growth remained at 17%.

Consumer loans — including payroll, personal and auto loans — total a balance of MXN\$122.7 billion, equivalent to an annual growth of 22%. This dynamism has been mainly supported by the issue of pre-approved loans to our own customer base. Meanwhile, the credit card billing increased at an annual rate of 10%.

Mortgage lending closed the year with a balance of MXN\$167.4 billion, 5% up on the previous year. However, 20% more new loans were issued than in 2014, maintaining BBVA Bancomer's leading position in the market with one out of every four mortgages in the private sector.

Lending growth has been accompanied by good asset quality indicators. At the close of December 2015, there was an improvement in the NPA ratio of 35 basis points to 2.4%, compared favorably against the market.

On the other hand, customer deposits, which include demand deposits, time deposits, and bank bonds, stood at MXN\$948.54 billion, an annual increase of 19%. Demand deposits remain strong, with a balance of MXN\$681.51 billion, an annual increase of 18%. Time deposits closed the year at MXN\$175.80 billion, an annual increase of 21%. This performance means the mix of funds gathered remains good; there is a greater relative weight of demand deposits.

As for assets under management in mutual funds, they amounted to MXN\$338.90 billion, allowing BBVA Bancomer to maintain its position as one of the biggest mutual fund managers on the market, with a market share of 19%, according to information from the Mexican Securities Industry Association (AMIB, in Spanish).

It is important to stress that BBVA Bancomer is a solvent institution. At the close of the year the bank had a total capital ratio of 14.9%, above the levels required by regulations. In addition, it has continued to manage actively its levels of liquidity to respond to the growth in business.

With respect to its income statement, BBVA Bancomer showed a high strength with solid earnings based on constant generation of revenue, while maintaining recurring expenses under control – despite a backdrop of strong lending – and a clear risk management.

Net interest income amounted to MXN\$100.99 billion, an annual growth of 9%. This growth has been driven by higher loan and deposit volumes, as well as by a good performance in the insurance business. Fees and commissions saw an annual increase of 4%, amounting, at the end of December 2015, to MXN\$21.28 billion. The above, boosted by the dynamism of credit and debit card, ATM and investment banking fees and commissions.

The ongoing investment in the country has been reflected in a 9% annual increase in the administration and operating costs. This allows BBVA Bancomer position itself as one of the most efficient institutions in the financial system, with an expense-to-income ratio of 41.9% at the end of December 2015. Today, BBVA Bancomer has a total of 1,818 branches and the number of ATMs has been increased in 1,776 of them, totaling 10,772 units at the close of the year.

In 2015, net profit was a cumulative MXN\$34.48 billion, 11% higher than the previous year.

The foregoing enabled BBVA Bancomer to be named “Best Bank in Mexico in 2015” by Global Finance and The Banker.

In the non-banking business, Seguros BBVA Bancomer posted an accumulated net profit of MXN\$4.04 billion, 3% higher than the previous year. Therefore, it maintains its leading position within the bancassurance market, and second place in the insurance sector.

So 2015 has been a year of good earnings and a year with a significant progress in the main lines of the Transformation Plan.

Launched in 2013, BBVA Bancomer’s Transformation Plan is focused on improving customer perception and service, boosting the growth of the business with quality, and making processes simpler and more efficient.

This Transformation Plan is leveraged on major investment of USD\$3.5 billion. At the end of 2015, around USD\$2.5 billion were invested, equivalent to 70% of total investment. Thus, significant progress has been achieved, such as:

In branches, over 1,400 branches have been refurbished, and other 127 are undergoing refurbishment. In Experiencia Única (Unique Experience), there is still a priority on improving service quality, making better customer experience with BBVA Bancomer. Therefore, the certification of branches is in progress.

As for technology, BBVA Bancomer has positioned itself as the leading bank and has been a benchmark in the financial system. In 2015, digital channels were extended with the purpose of distributing products and services. Also, various applications and digital solutions were launched, such as BBVA Wallet, a digital wallet; BBVA Send, money transfers to BBVA Bancomer customers and non-customers; and Wibe, the first application in Mexico for custom auto insurance quotes and selling—100% online.

“...In 2015, net profit was a cumulative MXN\$34.48 billion, 11% higher than the previous year...”

Likewise, in 2015, the BBVA Bancomer Innovation Center was inaugurated, the first of the banking sector in Mexico, in order to support entrepreneurs and create a new vision of financial services.

Thanks to the significant boost of the digital channels, BBVA Bancomer already has more than 3 million digital customers accounting for 18% of the total customer base. Over the last twelve months, consumer loans placed through digital channels have tripled; thus 15% of the total consumer loan placement has been made through a digital or remote device.

As for the new headquarters, during 2015 the entire staff was moved to new corporate buildings: The BBVA Bancomer Tower, Parques BBVA Bancomer, and the Data Processing Center (CPD, in Spanish). These buildings hold a capacity for more than 11,000 people.

All these initiatives, launched for the benefit of customers, already record significant achievements. As the main achievement of BBVA Bancomer is the recognition of customers, In 2015, we positioned ourselves as the first institution of the market in the Net Recommendation Index (IReNe, in Spanish), advancing two places compared to the bank ranking in 2014.

Moreover, the Transformation Plan will be completed in 2016, but BBVA Bancomer always looks forward to the new challenges.

Therefore, a new Strategic Plan is being developed, which will be implemented from 2016 to 2019. Its main objective is to boost results and maintain the leading position in Mexico.

Finally, I do not want to miss the opportunity to thank the ongoing and deep commitment of each and every one employee of Grupo Financiero BBVA Bancomer; our customers for their decision to choose us; and the members of our Board of Directors for their dedicated activity to continue to strengthen our bank so that we can become "Mejor Banco Para Ti" (The Best Bank For You).

Adelante,

Eduardo Osuna Osuna
CEO

BBVA Bancomer by Business Units

In BBVA Bancomer we are working to build a better bank for you.

Commercial Banking

2015 was an excellent year for BBVA Bancomer and for Commercial Banking. A year of transformation in which we were able to integrate the talent of the central areas with the power of the entire network.

Throughout this year, various opportunities were identified, and challenges were addressed with professionalism, ability, method, and discipline.

A project was launched to increase account executives and networks' productivity; this has been reflected in the promotion of consumer, payroll, and personal loans, growing over 20% annually. Also, the credit card billing was 10% higher than the previous year, while new mortgage loans increased 20% in the last twelve months.

“...lending activity showed an extraordinary development registering an annual growth of 16%, and developer loans amounted to 27%, higher than the previous year. On the other hand, fundraising also showed a positive trend growing 18% in the year...”

Additionally, in order to improve customer service, the Experiencia Única internal certification was 100% installed in the network. At year end, 1,431 branches have been refurbished, and 127 additional branches are being refurbished. This has enabled BBVA Bancomer to be recognized by its customers as the best service bank in Mexico, following the bank's strategy of placing the customer at the heart of the business.

These achievements have been generated by maintaining an extraordinary quality of sales and an excellent work environment reflected in the annual Great Place to Work survey.

Wholesale and Investment Banking

During 2015, the Wholesale and Investment Banking is created, which arises as a result of the merger of Government & Corporate Banking and Corporate & Investment Banking. This Banking aims to make better use of the capabilities of BBVA Bancomer and better serve institutions through a comprehensive offering ranging from the most basic to the most sophisticated products.

2015 was a great year for Wholesale and Investment Banking—excellent results were achieved. By going into a little more detail, lending activity showed an extraordinary development registering an annual growth of 16%, and developer loans amounted to 27%, higher than the previous year. On the other hand, fundraising also showed a positive trend growing 18% in the year.

As for results the story is no different—we achieved to increase the net margin at 23% throughout the year and net income of this banking recorded an amount 20% higher than the previous year. It should be noted that now the Wholesale and Investment Banking represents 32% of Income Before Tax of BBVA Bancomer.

Considering the foregoing and the constant transformation to improve service and products day by day, BBVA Bancomer has been internationally recognized by the Global Finance magazine as the Best Investment Bank in Mexico; also noting that the institution has the largest Transactional Banking. This was achieved thanks to the implementation of a clear strategy focused on profitability, efficiency, and cost control.

Undoubtedly, this business unit is fully positioned to continue setting trends. This, regardless of the powerful team it has to maintain leadership in the wholesale world.

Global Markets

2015 was a very difficult and challenging year for Global Markets, but everything has been successfully overcome. During this year, the financial system faced new regulatory frameworks both in Mexico and in other regions (North America and Europe).

The challenge was to develop new tools and management processes that allowed the business to continue, serving customers properly.

Another major challenge was the market volatility and uncertainty, in this environment where customers demand innovation in products and an array of value-added services with solutions suitable to the environment. All this, in a world with greater requirements of profitability, taking advantage of the differential capacities of BBVA Bancomer to provide solutions to customers.

BBVA Bancomer was recognized in 2015 as a leading and innovative bank in structured products, achieving very successful campaigns in coordination with the High Net Worth.

In such a complex environment, it was able to regain leadership in the world of FX, generating recurring revenue. Then, in 2015, the Global Finance magazine recognized BBVA Bancomer as the Best FX Supplier in Mexico.

This business unit also joined the BBVA Bancomer's digital transformation with the development of Bancomer Trader, an online shares trading tool, with which it seeks to achieve a strong impact on customer experience.

Ultimately, in Global Markets — despite the complexity and challenges of 2015 — we achieved an important differentiation against competitors and maintaining industry leadership.

“...BBVA Bancomer was recognized in 2015 as a leading and innovative bank in structured products, achieving very successful campaigns in coordination with the High Net Worth...”

BBVA Bancomer Insurance

Insurance business of Grupo Financiero BBVA Bancomer includes Seguros BBVA Bancomer (Insurance), Multiasistencia (Insurance) and Pensiones BBVA Bancomer (Annuities). For this business, 2015 has been an extraordinary year, the year of transformation, innovation, multiple channels, and development of new sales channels, seeking a very good range of products for all customer segments.

Insurance and Annuities contributed more than MXN\$9 billion to the total result of Grupo Financiero BBVA Bancomer, equivalent to an annual growth of 10.5%. Thus, Seguros BBVA Bancomer has become the second most profitable insurer in the country. While Pensiones BBVA Bancomer has become the market leader with a share of 38%.

Also, new platforms for interaction with customers are being built, and digital channels and tools are being developed to facilitate contracting, use and customer services, following one of the values of BBVA Bancomer: simplicity. The foregoing has led to a clear improvement in customer experience with this business unit.

In 2015, WIBE was launched—a 100% digital project that changed the insurance market in Mexico. It is an application in which customers can customize and contract online insurance policies, transforming the sales model to provide better service and faster access to financial services.

“...In 2015, WIBE was launched—a 100% digital project that changed the insurance market in Mexico. It is an application in which customers can customize and contract online insurance policies, transforming the sales model to provide better service and faster access to financial services...”

Also, insurance sales have been innovated through remote channels such as ATMs, Bancomer.com, and BMóvil under the one-click mode—the fastest way to contract in just a few seconds.

Through telemarketing, selling practices have improved, reducing cancellation ratios and increasing customer recommendation ratios. Furthermore, cross-selling in Línea Bancomer (customer service phone number) has been increased by 36% through 1.2 million of customized offers giving customers better advice according to the segment, life cycle, and income.

More than half a million safe cash policies have been placed over the counter. For the SME world, there was also a good performance, showing by registering a growth of 45% over the previous year.

Seguros (Insurance), Multiasistencia (Insurance) and Pensiones BBVA Bancomer (Annuities) are under ongoing transformation to provide the best customer experience. Image and unique experience in Multiasistencia (Insurance) and Call Center, a model of customer service achieving a standardized and differentiated experience against competition, just to mention some of the initiatives. The goal is further improvement and that quality is reflected in customer service.

Talent & Culture

2015 was a very relevant year to BBVA Bancomer—a year of constant change and a major transformation. Such transformation involved many areas in terms of processes, technology, and branches. It bears mentioning that customers are taking this very positively.

This business unit has not been the exception, so transformation began from changing the name Human Resources to Talent & Culture.

In this unit, we understand that the institution's human factor is the most important thing. Therefore, in 2015 we started a renovation project of various Talent & Culture processes that are key to attracting, retaining, and growing top talent and so that the bank's culture continues its transformation positively.

The Talent & Culture Transformation Plan is a very robust plan involving many areas related to human capital, culture, the way we want to work, to attract talent and to develop people. We seek to be more careful in attracting talent, but especially in retaining top talent.

Building a better bank starts from within and thus BBVA Bancomer is convinced that it is not only necessary to have the best team in the financial system, but to motivate, retain, train and encourage it to attain a greater professional and personal growth. This will allow us to keep building a more solid and robust institution.

“...The Talent & Culture Transformation Plan is a very robust plan involving many areas related to human capital, culture, the way we want to work, to attract talent and to develop people. We seek to be more careful in attracting talent, but especially in retaining top talent...”

Business Development

In 2015, the Directorate General of Digital Banking merged with the Directorate General of Business Development and Payment Channels, creating the new Directorate General of Business Development to promote and complement the BBVA Bancomer distribution channels and sales force.

This merger also transformed the way of working: a commitment was made for the methodology based on the implementation of small interdisciplinary and autonomous workgroups building a value proposition and with delivery of viable products, on minimum versions and on a quarterly basis.

This has led to increased productivity and development capacity, thereby increasing, from 6 to 27, the range of products that we can distribute digitally at year end.

Also, at the end of 2015, the number of customers using digital channels services increased to 3.2 million and 92% of employees became users of digital services.

With the boost in sales through digital channels, we managed to sell 15% of total consumer loans and 5% of total customer loans. 40% of the product called Advanced Payroll was distributed through the network of BBVA Bancomer ATMs. In addition, 40% of immediate cash was also distributed through digital channels and 45% of credit line increases were not made in branches.

The vertical applications strategy has been very successful—280,000 BBVA Wallet downloads, 125,000 Vida BBVA Bancomer downloads, 100,000 Línea Bancomer downloads have been made; BBVA Send was launched by year-end.

Undoubtedly, 2015 was a great year: the year of consolidation of the digital transformation for BBVA Bancomer.

Transformation

The main challenges and achievements of the transformation area in 2015 have been very clear and are divided into three major pillars:

The first pillar is the transformation of space (Ulysses project), which involves refurbishment of branches. Also, not only the new headquarters are environment friendly built, but also aim to concentrate the core areas there.

The second pillar is Experiencia Única (Unique Experience), the standardization of the business model seeking homologation and improving the customer experience with BBVA Bancomer. To achieve this we provided the network with new tools.

“...With the boost in sales through digital channels, we managed to sell 15% of total consumer loans and 5% of total customer loans...”

“...Under these strategic pillars it is how we improve the customer experience at every point of contact, and thus better meet the needs to achieve customer recognition...”

The third pillar is the Process Plan, with a customer and macro-project view, seeking to address the areas of opportunity in processes. The main ones were the customer experience on the network, productivity and internal control.

Under these strategic pillars it is how we improve the customer experience at every point of contact, and thus better meet the needs to achieve customer recognition.

CRR Advertising Campaigns and Communication

Massive Campaigns

AutoSeguro Bancomer (Bancomer Vehicle Insurance)

“Transformer” was our 2015 campaign in which a car transforms and defends itself. There were different advertising pieces emphasizing that this was an impossible situation—better safe than sorry.

Vida Bancomer

“Comparte la Vida Bancomer” (Share Bancomer Lifestyle) was our 2015 campaign to raise awareness among customers of the benefits of this program and promote the habit of redeeming Bancomer Points (Bancomer rewards program).

Wibe

The 2015 Wibe campaign had a follow-up purpose: to consolidate the positioning of Wibe so that this may be one of the first choices when people look for a car insurance policy.

Digital Campaigns

BBVA Wallet

The aim of this campaign was that bank customers downloaded this application to generate virtual cards of all physical credit and debit cards. During the campaign the functional benefits of the app (safety, speed and innovation) were announced, sending messages to build trust for online purchase.

Vida Bancomer

In order to promote the Vida Bancomer app, the campaign focused on communicating users that when they use the app they can find discounts, promotions and places where they can pay with Bancomer points.

BBVA Bancomer Seguros

Tu auto no se defiende solo.

BBVA Bancomer, S.A., institución de Banca Múltiple, Grupo Financiero BBVA Bancomer

BBVA Send

This digital campaign aimed to promote this new app, which purpose was making bank transfers easily and quickly, with messages highlighting the simplicity of making a money transfer only by having our contact's cell phone number.

Bancomer SMS

The purpose of this digital campaign was to motivate users to activate or use any of the services via SMS, highlighting the discomfort of going to the bank to make simple transactions such as checking one's account balance.

CRR Communication

To communicate the activities and results of the BBVA Bancomer responsible business strategy, studies and reports are generated, which are spread among its stakeholders, mainly through electronic means.

| BBVA Bancomer CoP and Foundation | The Global Compact – to which the Bank is adhered since 2004 and the Foundation since 2010 – requests submitting an annual activity report (CoP) to evidence that organizations meet their 10 principles. It is available on the Global Compact's website. |
| Materiality Report | For six years now in the case of BBVA Bancomer and for one year now in the case of the Foundation, a materiality analysis is prepared, which results – better known as relevant issues – are validated by the Responsible Business Committee. |

Economic Impact

Analysis and Discussion of Business Development

Grupo Financiero BBVA Bancomer, key balances in millions of pesos.

Commercial Activity

At year end, performing loans amounted to MXN\$882.66 billion, MXN\$96.231 billion or 12.2% up on the figure for 2014. This positive development not only allows BBVA Bancomer positioning as market leader with a share of 23% at the end of December 2015, but also — according to the CNBV — it has been the bank with the largest increase in total loans balance during the last twelve months.

Performing Loans

In millions of pesos

Commercial Loans

Source: Quarterly Information
In millions of pesos

By headings, the commercial loans amounted to MXN\$496.83 billion, 19.4% up on the figure for 2014. This is due to the annual 16.2% growth in business activity, which accounts for 69% of the commercial loans, by the loans to government bodies, which increased by 7.4% over the year and by financial institutions that grew 57.7%.

Consumer lending and credit card had a balance of MXN\$217.98 billion, an annual growth of 12.7%. Within this portfolio, the biggest buoyancy can be seen in the consumer lending: payroll, personal and auto loans, with a balance up 22.4% over the year. The trend of payroll and personal loans has been mainly supported by the issue of loans to our own customer base, which not only allows increasing volumes but also maintaining quality in these loans. Meanwhile, credit card closed the year with a balance of MXN\$95.28 billion, growing 2.2%.

Consumer Lending + Credit Card

Source: Quarterly Information
In millions of pesos

Bank deposits (demand and time) grows 18.5% throughout the year. When including bank bonds, customer deposits increases 19.3% annually. Thus, BBVA Bancomer has also been the bank with the largest deposits balance in the last 12 months, representing 31% of the market, according to CNBV's public information.

At the end of 2015, demand deposits amounted to MXN\$681.51 billion, equivalent to an annual increase of 17.9%. It bears mentioning that, as of December 2015, the bank maintains its leadership with a market share of 26.7%, according to the CNBV. On the other hand, time deposits posted an annual increase of 20.6%, amounting MXN\$175.80 billion.

Depósitos Vista

Source: Quarterly Information
In millions of pesos

As of December 2015, assets under management in mutual funds amounted to MXN\$338.90 billion, with an annual increase of 1.5%. The foregoing, places BBVA Bancomer as one of the biggest mutual fund managers on the market, with a market share of 19.5%, according to the Asociación Mexicana de Intermediarios Bursátiles (AMIB, Mexican Securities Industry Association). Thus, total deposits amounted to MXN\$1.287 trillion, equivalent to an annual growth of 14.0%.

It is important to say that BBVA Bancomer manages nearly MXN\$1.6 trillion of customer funds.

Income Trend

In December 2015, the net interest income stood at MXN\$100.99 billion, an annual growth of 9.2%. This growth has been driven by higher loan and deposit volumes, as well as by a good performance in the insurance business. Preventive estimates increased 11.6%, still below the development of total loans.

Proper risk management has maintained the quality of the loan portfolio over the year, as reflected in the increase of the preventive estimate for credit risks, which was under the growth in lending. As a result, net interest income adjusted for credit risks amounted to MXN\$72.51 billion in December 2015, 8.3% up on the figure for the previous year.

Fees and commissions saw an annual increase of 3.9%, amounting, at the end of December 2015, to MXN\$21.28 billion. At the opening of this item, credit and debit card, ATM, and investment banking fees and commissions showed a greater buoyancy.

Recent volatility in financial markets has been reflected in brokerage income of GFBB, which at the end of December 2015 amounted to MXN\$4.18 billion, with an annual increase of 5.7%, supported mainly by the appraisal and purchase-sale of financial derivative instruments and foreign exchange.

Other operating income ended the year with a balance of MXN\$795 million, mainly supported by income from the sale of own real estate property as well as foreclosed properties.

The ongoing investment in the country has been reflected in a 9.1% annual increase in the administration and operating costs. However, proper management of income allows GFBB position itself as one of the most efficient institutions in the financial system, with an efficiency ratio – measured as an expense-to-income ratio – of 41.9% at the end of December 2015. It has 1,431 fully-refurbished branches from a total of 1,818; the number of ATMs have been increased in 1,776 branches, totaling 10,772 units at the end of 2015.

Net profit amounted to MXN\$34.48 billion in 2015, an increase of 11.2% or MXN\$3.48 billion.

Social and Environmental Impact

Social Impact

Customers

Part of our business strategy is to put the customer at the center of business. We are moving towards a more digital model that improves the customer experience.

KYC

Experiencia Única (Unique Experience) has become the integral model that consolidates, standardizes, and structures management, sale and service in a homologated way within branches and on a customer-facing basis.

Two years after the implementation of Experiencia Única – at the more than 1,700 branches – 2015 brought a development and a challenge to the model; since, besides upholding skills learned, the segments, some subsidiaries and contact centers models were designed and implemented.

The design and development of specialized models for High Net Worth, Personal Banking and SMEs achieved strength in service, management and service of portfolios, standardization of tools, use of protocols and – in the case of SMEs – greater geographic dispersion for customer service.

Therefore, Experiencia Única has become a fundamental part to support the objective of improving awareness and customer service, while boosting productivity and profitability. During 2013-2015, these efforts paid off as the customer satisfaction index of the Network increased 6 points and the market measurement places us at the leading position in the customer recommendation intention.

As for our teams within the branch Network, besides considering that the model has boosted sales productivity, it has also allowed them a better management and clarity of objectives.

Complaints and Claims Management

Customer experience and quality are the key levers to attract and retain customers within the new competitive environment. Claims, as the customer's voice source, allow identifying the causes behind complaints and activating action plans. Undoubtedly, they represent a moment of truth, which analysis and management provide relevant information of drivers of customer dissatisfaction.

The complaints that one of our customers or users might have on the use of BBVA Bancomer products and services, are resolved by the relevant channels; the main channels are: Branches, Línea Bancomer (customer service phone number) and Bancomer.com

Claims Submitted to the UNE

| | 2013 | 2014 | 2015 |

Scope: BBVA Bancomer

Multiple Channels

The multichannel strategy of BBVA Bancomer allows customers to contact the bank using the most convenient method, regardless of when, how or where they wish to access.

Together with our customers, we are evolving into digital channels and products. These new technologies allow us to serve other segments of the population on a profitable and sustainable basis.

2015 Developments

2015 Multiple Channels

| Channel | Total number of transactions | Non-financial | Financial |
|----------|------------------------------|---------------|-------------|
| Internet | 1,171,093,245 | 960,168,815 | 210,924,430 |
| ATMs | 849,196,179 | 327,350,421 | 521,845,758 |
| Bmovil | 493,481,354 | 463,000,886 | 30,480,468 |
| BSMS | 6,632,868 | 6,356,517 | 276,351 |

Together with our customers, we are evolving into digital channels and products. These new technologies allow us to serve other segments of the population on a profitable and sustainable basis.

Customer Protection

Considering the prevailing insecurity and crime in Mexico, the Department of Institutional Security is working on several fronts to protect the safety of customers and users when using our services.

2015 Developments

- As for branch robberies, we have implemented and installed new technologies in branches and ATMs, exceeding the standards established by law, such as:
 - Installation of screens in counters limiting visibility of customer's transactions.
 - Installation of CCTVs in parking areas.
 - Implementation of the Anfitrón Bancario (Banking Host)—a bank clerk at the branch who warns, detects, and identifies crime patterns. This person will activate the warning operation towards the Institution's surveillance monitoring center.
 - Security and surveillance at risk-prone branches.
 - Regular meetings held with municipal and state authorities through the SEPROBAN (Security and Banking Protection) (Coordinator) authority to reach cooperation agreements.
- As for fraud prevention, we operate with the state-of-the-art technology, and with staff trained for the implementation and application of security measures. In 2015, training courses for the prevention and eradication of "document fraud" were held.
- Another security measure performed in 2015 were audit visits to strategic suppliers with the purpose of verifying safety in the processes inherent in our products, bank cards and checks, detecting irregularities and engaging the services of a supplier that meets the security measures required by the institution.

Staff

The migration of employees to our new headquarters goes beyond a simple change of office: it is actually a change of culture. This new work experience consists of 5 large areas:

1. A new technology experience;
2. Open, nearby, and bright spaces;
3. Value-added services such as free corporate shuttle, medical service and cafeteria;
4. Respect for the environment; and
5. Rules of conduct for the respect for others.

This new way of achieving teamwork results contributes to a better quality of life, while triggering the productivity of everyone working at BBVA Bancomer in a healthier and more efficient environment.

Staff Profile

In BBVA Bancomer Group is made up by 38,719 employees throughout the 31 states of the Mexican Republic, from which 53.4% are women and 71.5% are between 25 and 45 years of age.

Staff by Age and Gender

| | 2013 | 2014 | 2015 |
|------------------------|-------------------------|---------------|---------------|
| Age | Percentage of employees | | |
| < 25 | 14.8% | 18.9% | 11.2% |
| 25-45 | 71% | 66.7% | 71.5% |
| < 45 | 14.2% | 14.4% | 17.3% |

Scope: BBVA Bancomer Group

Hiring, Training, and Development

We have a development model focused on building the best place to work by promoting the growth of our employees with responsibilities shared with the institution. This model consists of three steps, each with tools that allow employees' growth:

Development Model

| | |
|---------------------------------|---------------------------------|
| Conócete (Know Yourself) | DNA employee's dossier |
| | Personal assessment |
| | Performance assessment (Rating) |
| Prepárate (Prepare Yourself) | BBVA University |
| | Training |
| | Self-development plan |
| Participa (Contribute) | Apúntate (Sign up) |
| | Carreras de avance (Careers) |
| | A punto (Tune up) |

We have a development model focused on building the best place to work by promoting the growth of our employees with responsibilities shared with the institution.

Our hiring tools, such as the Apúntate (Sign up) job board and the Job-posting system, help us guaranteeing talent development, transparency in hiring processes, and equal opportunities.

Rating, our new performance assessment process, consists of an overall evaluation of each employee according to his/her roles and responsibilities. This process includes evaluating attitudes through two concepts: cataloging and projection.

As a key element to human development, we keep our training efforts with an average of 68 hours of training activity per employee. This activity is distributed: 38.2% on-site training and 61.8% e-learning channel.

2015 Developments

- This year, 26,488 employees of BBVA Bancomer took a performance evaluation.
- In 2015, 1,461 employees enrolled at Universidad BBVA (BBVA University) for high school, undergraduate and graduate studies, in partnership with Universidad Tecmilenio (Tecnológico y de Estudios Superiores de Monterrey (ITESM, in Spanish) (Monterrey Institute of Technology and Higher Education), and Colegio Nacional de Matemáticas (CONAMAT, in Spanish) (National College of Mathematics), with 415 graduate students.
- 285 employees were supported to complete their studies.
- Other courses offered both to direct and outsourced employees were: Seguridad en nuevas sedes corporativas (Security in New Corporate Headquarters), Ciudadanía net (Citizenship net), Competencia digital (Digital Competence) and Guías de cambio (Guidelines of Change).

Diversity and Balance

Our inclusive diversity strategy aims to ensure respect for differences, equal opportunities and optimize all our employees' attributes.

The BBVA Bancomer Gender Diversity Plan focuses on three lines of action:

1. Maternity: Prevent maternity leave from being an impediment to the development of women at the company.

2. Professional Development: Encourage the promotion of talented women.
3. Awareness: Raise awareness about the need for the best people occupying the best positions, regardless of their gender.

Furthermore, BBVA Bancomer has the Inclusion of People with Disabilities program, through which we are working on creating a culture of inclusion, through 4 steps: infrastructure and accessibility, HR processes, inclusion and awareness.

2015 Developments

Category of Employees by Gender

| | 2013 | | 2014 | | 2015 | |
|--------------------------------------------|---------------------|-------|-------|-------|-------|-------|

Levels of Reinstatement Following Maternity Leave

| | 2013 | 2014 | 2015 |
|----------------------------|-------|------|-------|
| Maternity Leaves (1) | 1,118 | 972 | 1,131 |
| Number of leaves covered | 566 | 662 | 647 |
| Number of women reinstated | 628 | 767 | 996 |

(1) "Leaves" mean women who were absent on account of maternity.

- This year, five women were promoted to Senior Management positions—more than double the previous year.
- We supported working mothers as we built breastfeeding rooms at headquarters, and signed contracts with nurseries and schools.
- We worked in awareness of employees, mainly through the diversity website, promoting paternity, maternity and respect for diversity.
- To achieve balance between work and family life of employees, we promoted staggered schedule so they can leave early.
- We worked on infrastructure and accessibility for people with disabilities at our three new headquarters and eight branches: parking spaces, ramps, bathrooms and office spaces.
- Awareness was raised in various teams in the "fully-accessible branches", where eight employees with disabilities joined.
- We made two social support visits to children with disabilities, and we painted a school for people with disabilities.

Health & Safety

Based on our Occupational Health Policy, we protect our employees ensuring they work in optimal health, hygiene and safety conditions.

| Year | 2013 | 2014 | 2015 |
|-----------|---------|---------|---------|
| Employees | 36,794 | 30,981 | 30,270 |
| Days | 200,667 | 195,328 | 204,540 |

Scope: BBVA Bancomer Group

- To ensure employees safety at the new headquarters, the following measures have been implemented:
 - State-of-the-art systems were installed for people and vehicle access control.
 - Fire-fighting equipment with adherence to national and international standards, as well as a permanent fire brigade in each building.
 - Earthquake-resistant structures.
 - The buildings have a brigade trained in advanced contingency management.
 - Lower-risk areas in all floors for staff protection.
 - Civil protection courses so that staff knows the characteristics of the buildings, what to do in the case of emergencies and how to get to the main evacuation routes.
 - New ways of information on preventive measures.
- To improve vehicle access control at the Bancomer Tower the following measures have been implemented:
 - 2,813 parking spaces;
 - Corporate shuttle to and from different parts of the city;
 - Parking for 234 bicycles;
 - Staggered work schedules;

Our compensation system is based on the mutual creation of value for professionals and for the Group, pursuant to the best generally accepted national and international practices in remuneration and good governance.

Benefits and Pay

Our compensation system is based on the mutual creation of value for professionals and for the Group, pursuant to the best generally accepted national and international practices in remuneration and good governance.

Remuneration is made up of two clearly differentiated parts:

- A fixed compensation, which is established by taking into consideration the level of responsibility and professional career of the employee, setting a benchmark salary for each function.
- Variable compensation, which compensates value creation within the Group, remunerating individual contributions, those of the teams and the aggregate of all of them. Variable compensation aims to recompense achievement at the individual, group and organizational level, measured through customer, financial and other indicators.

On freedom of association and union representation, we understand that dialogue and conciliation are the best way to solve conflicts and reach consensus.

The basic salary for each professional category is the same regardless of gender, while fully respecting the individuality of each employee and avoiding discrimination of any kind. Our minimum wage in the company is 50% higher than the minimum wage within the country.

BBVA employees also have a range of social benefits which are grouped into three areas:

- Personal loans for clothing and footwear, consumption, automobiles, mortgages, personal items and business loans.
- Agreements with companies and memberships in discount and hotel programs, vacation incentives, and seniority recognition.
- Athletic, social and cultural activities to promote integration and family wellbeing.

Occupational Conditions

Every two years, we conduct the Internal Satisfaction Survey in order to identify areas for improvement. In the 2014-2015 edition the most highly valued aspects were team, equality, and reputation.

On freedom of association and union representation, we understand that dialogue and conciliation are the best way to solve conflicts and reach consensus.

BBVA Bancomer has the most comprehensive collective labor agreement in the financial sector, which defines labor relations with 29.8% of the BBVA Bancomer Group's employees.

Having a decent and responsible labor union representation as well as a recognized and solid collective agreement allows us to continue the development of actions and projects; always relying on a well-paid and attractive human capital, which leads us to keep a firm position in the financial market.

Every two years the Collective Labor Agreement is thoroughly reviewed together with the BBVA Bancomer National Union of Banking and Credit Services and Related Financial Activity Employees (SNAEBB, in Spanish), in order to reformulate administrative clauses.

2015 Developments

| Bank's Workforce: 38,719 | | | |

| Unionized | | Non-unionized | |
| Men | 4,028 | Hombres | 13,996 |
| Women | 7,523 | Mujeres | 13,172 |
| Total | 11,551 | Total | 27,168 |

Scope: BBVA Bancomer Group

Volunteering and Social Engagement

Our Corporate Volunteering Program aims to relate the bank's corporate social responsibility programs to the genuine interest of our employees who wish to volunteer for their community.

2015 Developments

- 3,346 volunteer employees
- 8.6% staff participation
- 9 driven volunteering actions
- 27,211 volunteering hours

Among the volunteer activities performed in 2015 are: godmothers and godfathers (sponsors) of the Becas de integración program, Olimpiada del Conocimiento Infantil (Children's Knowledge Olympics) and Becas Bicentenario (Bicentennial Stipends); Valores de futuro (Future Values) financial education workshops; ¡Vamos a pintar una Escuela! (Let's paint a School!) to renovate an educational space for people with disabilities; BBVA Bancomer Volunteer Day; Reforestación Bosque BBVA (BBVA Forest Reforestation) to plant with the family 10,000 pine trees; Visit to Papalote Museo del Niño (Papalote Children's Museum) and to Rancho Mágico with social support to children and youth with disabilities; SÚMATE and Momentum Project to support social entrepreneurship.

Suppliers

The new digital era of BBVA Bancomer has also reached our procurement system in order to improve ourselves and moving closer to our suppliers.

Global Procurement System (GPS) es la plataforma tecnológica global que da soporte a todas las fases del proceso de aprovisionamiento, desde la presupuestación, compras y finanzas. GPS está integrada con el portal de proveedores Adquira Marketplace, que permite la interacción en línea entre la empresa y sus proveedores, a través de un entorno colaborativo, mediante el intercambio electrónico de documentos.

The relationships that BBVA Bancomer maintains with its suppliers are governed by the Code of Conduct and are based on compliance with the law and a commitment to integrity, competition, objectiveness, transparency, the creation of value, and confidentiality.

We require that our suppliers meet, at minimum, our own social and environmental standards, and that they uphold all current legislation as well as the principles outlined in the United Nations Global Compact.

In 2012, the BBVA Group Responsible Purchasing Policy was approved. Its purpose is to integrate social and environmental factors in all procurement processes.

Our supply chain is made up of a catalog of suppliers we classified according to their billing in A, B, C1 and C2; the most important being the first three representing almost 70% of billing.

Suppliers are subject to an approval process that involves validating annually that they adhere to the guidelines set by the BBVA Bancomer Group, in terms of our business relationship. We analyze administrative, financial, operational, regulatory and legal aspects, among others, with the aim of ensuring permanence and continuity to the synergy of business built over time.

There is a certifying entity responsible for conducting annual audits of suppliers to verify that they meet the certification criteria.

With the aim of measuring the degree of its suppliers' satisfaction, the BBVA Group conducts a biennial survey and, at local level, periodic surveys are conducted.

2015 Developments

Certification of Suppliers

| | 2013 | 2014 | 2015 |
|-------------------------------------------------------------------------------------------------|--------|---------------|------|
| Number of suppliers | 197(1) | 472 | 627 |
| Number of authorized suppliers | 381 | 441 | 493 |
| Percentage of purchases made with suppliers that have participated in the certification process | 85.76% | NOT AVAILABLE | 45% |
| Number of suppliers that have not undergone the certification process | 50 | 9 | 35 |
| Number of electronic negotiations | 4,574 | 452 | 963 |

(1) This number corresponds to 67.7% of all suppliers, who are considered as key suppliers.
Scope: BBVA Bancomer

- 95% of our major suppliers are local. The remaining 5% is from the United States, Spain, UK and Belgium.
- Last year we conducted the 2015 supplier satisfaction survey that showed a satisfaction rate of 82 out of 100 points.

Society

BBVA Bancomer channels its commitment to society through Fundación BBVA Bancomer A.C., which mission is to get and channel resources to support social, educational and cultural development programs that provide opportunities of sustainable development for the population that contribute to the construction of a more equitable and fair society for the benefit of Mexico.

The relationships that BBVA Bancomer maintains with its suppliers are governed by the Code of Conduct and are based on compliance with the law and a commitment to integrity, competition, objectiveness, transparency, the creation of value, and confidentiality.

BBVA Bancomer channels its commitment to society through Fundación BBVA Bancomer A.C., which mission is to get and channel resources to support social, educational and cultural development programs

To achieve this, the Foundation has developed several initiatives in three key areas: education, entrepreneurship and culture.

In 2015, the BBVA Bancomer Foundation allocated \$409,515,836 to its initiatives – 18% more than the previous year – benefiting, directly and indirectly, more than 30,000 people, with the help of both internal and external volunteers.

Education for Society

In order to help reducing dropouts and recognize high academic achievement, Educational Project department has two main programs: “Por los que se quedan” (For Those Who Are Left Behind) Becas de Integración and Becas Adelante scholarships and Becas de la Olimpiada del Conocimiento Infantil (Children’s Knowledge Olympics Scholarships).

“Por los que se quedan” (For Those Who Are Left Behind) Becas de Integración and Becas Adelante scholarships

The objective is that well-performing students from migrants’ communities are able to complete their junior high school studies and then continue with high school. To achieve this objective, the BBVA Bancomer Foundation supports them with a MXN\$1,000 monthly grant for Becas de Integración (junior high school), and MXN\$1,200 for Becas Adelante (high school), both for the 10-month school year.

2015 Developments

- For the 2015-2016 school year, Becas de Integración has coverage in 20 states and 159 municipalities nationwide. This school cycle we granted 18,000 scholarships.
- From 2006 to date 49,791 junior high school students have been benefited.
- To date, the Becas Adelante have benefited 10,000 youngsters in three generations.
- During 2015, youngsters of Becas Adelante participated in one out of five community service initiatives available: Líder BA (BA Leader), Líder educativo (Educational Leader), Emprendedor comunitario (Community Entrepreneur), Campaña Nacional de Alfabetización INEA (INEA National Literacy Campaign) and Tutores comunitarios de verano CONAFE (CONAFE Summer Community Tutors).
- The 2nd National Meeting of BA Leaders was held with the purpose of recognizing the best participations within Community Service projects, as well as encouraging young people to remain being transformational leaders of their communities.

Becas de la Olimpiada del Conocimiento Infantil (Children's Knowledge Olympics Scholarships)

The purpose of this program is to recognize high academic achievement of young people throughout Mexico. The winners of the Children's Knowledge Olympics — a sixth-grade elementary student competition organized by the Secretariat of Public Education (SEP, in Spanish) — receive a monthly scholarship of MXN\$1,000 during the 10-month school year, which is deposited into a BBVA Bancomer account.

2015 Developments

- In 2015, 3,150 students received a scholarship, with the support of 966 “godfathers” and “godmothers” (sponsors), managers of BBVA Bancomer branches who serve as mentors.

Entrepreneurship

Since 2009, the former Voluntariado Bancomer (Bancomer Volunteers' Group), in an alliance with ITESM, became BBVA Bancomer-Social Incubator Educational and Productive Centers.

Their objective is offering support and advice to entrepreneurs, through 16 centers worldwide, so they can carry out productive projects, which at the same time generate jobs and promote growth in their communities.

2015 Developments

- From 2009 to 2015 the following results were obtained in the Educational and Productive Centers:
 - 69,644 people served
 - 2,622 incubated micro-enterprises
 - 6,319 Prepanet students
 - 3,927 people attended the “Adelante con tu Futuro” financial education workshops
 - 8,889 ITESM students acted as tutors in the centers
- In 2015, institutional image was improved in 16 centers.
- This year, with regard to entrepreneurship, emotional rescue, literacy, and high school studies, the Magdalena Contreras's Center kept benefiting more than 1,850 people with our allies' support: Fundación Cadavienco, INEA, FONABEC and Proempleo.
- In partnership with the INEA, 3 centers that supported the Volunteering model were transformed—therefore, there are now 4 Bancomer-INEA Centers promoting all services offered by INEA in Baja California (La Paz), Chihuahua (Ciudad Juárez), Sinaloa (Mazatlán), and Veracruz (Tuxpan).

In 2015, the BBVA Bancomer Foundation allocated \$409,515,836 to its initiatives — 18% more than the previous year

In addition to complying with environmental laws, we have adhered to various volunteering initiatives

Cultural initiatives

The Cultural Development department is committed to promote innovative artistic and cultural projects with the firm objective to enrich the cultural heritage of Mexico. It is characterized by planning and promoting training programs that directly affect the work of artists, scholars and cultural managers.

2015 Developments

- Through the Bancomer Arts Scholarship 59 projects were supported, totaling MXN\$6,400,000.
 - Through the Bancomer-MACG Contemporary Art Program 5 group meetings were held; as well as individual consultations with curators, specialists and artists; and production of exhibition pieces, supporting 20 artists.
 - In 2015, through SOMA scholarships, 11 grants were awarded and 2 workshops were given by SOMA artists en Puruándiro, Michoacán for approximately 200 Por los que se quedan scholarship recipients.
-

Environmental Impact

Our commitment to the environment is reflected in the Environmental Policy. In addition to complying with environmental laws, we have adhered to various volunteering initiatives: the Financial Initiative of the United Nations Environment Programme (UNED-FI), the Equator Principles, the Principles for Responsible Investment (PRI), the United National Global Compact and the Carbon Disclosure Project.

We have established a Global Eco-Efficiency Plan (PGE, in Spanish), managed by the Purchasing, Properties and Services Department, which objective is to reduce our environmental footprint. The objectives per employee for the period 2013-2015 are:

- 3% reduction in water consumption
- 3% reduction in electricity consumption
- 3% reduction in paper consumption
- 6% decrease in CO2 emissions
- 33% of employees working at environmental certification buildings

2015 Developments

PGE Key Indicators

| | 2013 | 2014 | 2015 |
|----------------------------------------------------------|---------------|---------------|-------|
| Water consumption per employee (m ³) | 15 | 18.91 | 13.41 |
| Electricity consumption per employee (MWh) | 5.11 | 5.20 | 5.87 |
| Paper consumption per employee (kg) | 47 | 45.18 | 50.47 |
| CO2 emissions per employee (t) | 2.71 | 2.67 | 2.93 |
| People working in certified buildings (%) ⁽³⁾ | NOT AVAILABLE | NOT AVAILABLE | 23.54 |

(1) Total number of employees is the sum of employees of the BBVA Bancomer Group plus the number of external staff of the bank buildings and branches, which in 2015 amounted to 43,303.

(2) Including ISO 14001 and LEED certifications (under certification process).

Scope: BBVA Bancomer Group

Water Consumption

| Water consumption (m ³) | 2013 | 2014 | 2015 |
|----------------------------------------------------|---------|---------|---------|
| Total annual water used (m ³) | 628,663 | 805,342 | 580,804 |
| Water used annually per employee (m ³) | 15 | 18.91 | 13.41 |

(1) Total number of employees is the sum of employees of the BBVA Bancomer Group plus the number of external staff of the bank buildings and branches, which in 2015 amounted to 43,303.

(2) (m³) = cubic meters

2015 Scope: BBVA Bancomer Group

Electricity and Fuel Consumption

| Energy Consumption | 2013 | 2014 | 2015 |
|----------------------------------------------|-----------------------------------|--------------------------------|--------------------------------|
| Total electricity consumed | 214,146.19 MWh (770,926.28 GJ) | 221,781.63 MWh (798,414 GJ) | 254,074.12 MWh (914,667 GJ) |
| Total electricity consumed per employee | 5.11 MWh | 5.20 MWh | 5.87 MWh |
| Total LPG (Liquefied petroleum gas) consumed | 103,935 l (2,492.02 GJ) | 96,749 l (2,320 GJ) | 118,459 l (2,840 GJ) |
| Total diesel consumed (gas oil) | 563,966 l (20,559.80 GJ) | 768,590 l (28,019.52 GJ) | 657,322 l (23,963.16 GJ) |

(1) Total number of employees is the sum of employees of the BBVA Bancomer Group plus the number of external staff of the bank buildings and branches, which in 2015 amounted to 43,303.

(2) MWh=Megawatt hour

(3) GJ=Gigajoule

(4) l=Liter

2015 Scope: BBVA Bancomer Group

Kilometers Traveled by Plane:

| Km traveled by plane | 2013 | 2014 | 2015 |
|----------------------------|------------|------------|------------|
| Trips shorter than 500 km | 652,469 | 733,840 | 819,166 |
| Trips from 500 to 1,600 km | 13,573,319 | 16,253,372 | 16,243,029 |
| Trips larger than 1,600 km | 39,502,394 | 41,918,118 | 40,373,102 |

2015 Scope: Airplane trips in kilometers: BBVA Bancomer Group.

Audiovisuals

| | 2013 | 2014 | 2015 |
|-----------------------------------------|--------|--------|--------|
| Videoconferences | 3,278 | 3,598 | 6,886 |
| Rooms equipped for videoconferencing(1) | 106 | 112 | 175 |
| Audioconferences | 33,896 | 17,127 | 23,331 |
| Telepresence | 171 | 157 | 90 |

(1) Accumulated figures.

Scope: Central buildings and bank offices

Paper Consumption

| Paper | 2013 | 2014 | 2015 |
|----------------------------------------|-----------|-----------|-----------|
| Total paper consumed (kg) | 1,959,519 | 1,923,911 | 2,185,298 |
| Total paper consumed per employee (kg) | 47 | 45.18 | 50.47 |

(1) Total number of employees is the sum of employees of the BBVA Bancomer Group plus the number of external staff of the bank buildings and branches, which in 2015 amounted to 43,303.

(2) (kg)=kilogram

2015 Scope: BBVA Bancomer Group

CO₂ Emissions

| Atmospheric emissions (t) | 2013 | 2014 | 2015 |
|----------------------------------------|---------|----------|---------|
| Total CO ₂ emitted (t) | 113,100 | 113,566 | 126,827 |
| Total CO ₂ per employee (t) | 2.69(2) | 2.66 | 2.93 |
| Direct CO ₂ emissions (t) | 3,988 | 2,240(4) | 1,968 |
| Indirect CO ₂ emissions (t) | 109,112 | 111,469 | 124,859 |

(1) Total CO₂ emitted is calculated by adding direct emissions (fossil fuels) to indirect emissions (electricity and air travel).

(2) Total number of employees is the sum of employees of the BBVA Bancomer Group plus the number of external staff of the bank buildings and branches, which in 2015 amounted to 43,303.

(3) From 2014, car trips were not considered for the calculation of direct CO₂ emissions, hence their considerable decrease over the previous year.

(t) = metric tons

2015 Scope: BBVA Bancomer Group

Environmentally certified buildings

In 2015, the construction of our new corporate headquarters was completed. The headquarters are made up by three buildings – the BBVA Reforma Tower, the BBVA Bancomer Polanco Tower, and the Data Processing Center – that already accommodate 9,955 BBVA Bancomer employees in Mexico City, who were previously in seven buildings.

The three buildings are under the Gold, Silver and Tier IV LEED (Leadership in Energy and Environmental Design) certification process, as well as under ISO14001 and the FSC (Forest Stewardship Council), processes, which imply considerable savings in energy, water, recycling, and resource management, while also ensuring that our employees are working in a healthy environment.

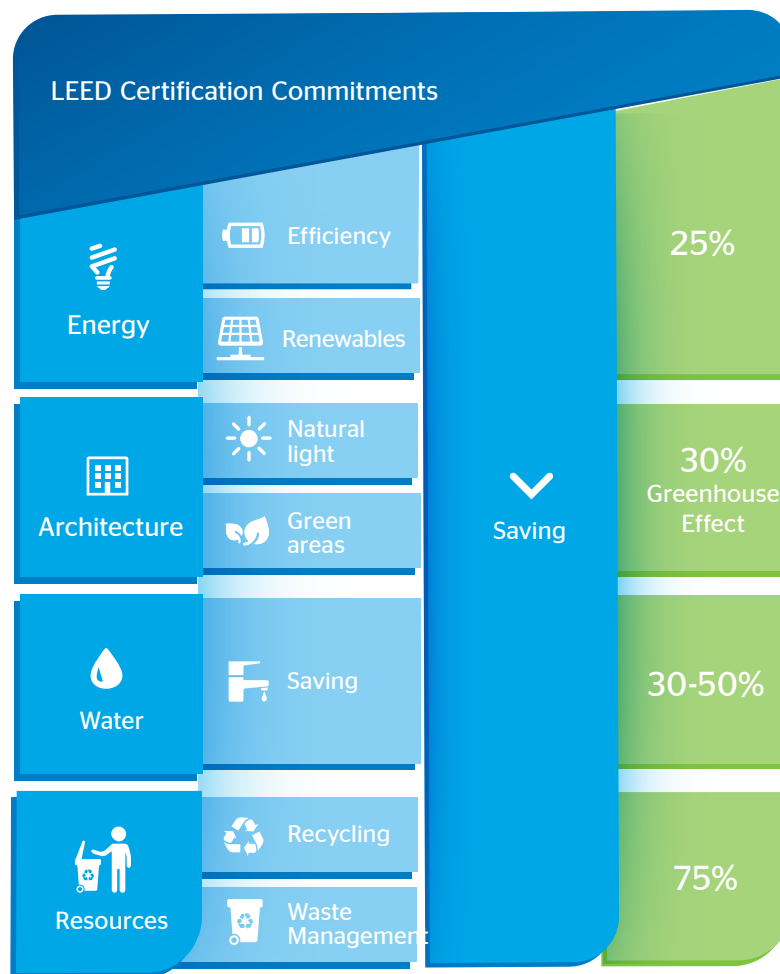

Buildings certified pursuant to ISO: 14001

| | 2015 |
|-----------------------------------------------|--------|
| Buildings certified pursuant to ISO: 14001 | 1(2) |
| Number of employees in certified buildings(1) | 11,062 |

(1) Including ISO 14001 and LEED certifications.

(2) Montes Urales 620.

2015 Scope: BBVA Bancomer Group

Waste Generated

| Waste generated | 2013 | 2014 | 2015 |
|----------------------------------------|-----------|-----------|--------|
| Paper (kg) | 1,088,058 | 1,051,703 | 65,080 |
| Electrical and electronic devices (kg) | 46,689(1) | 46,475 | 32,873 |

(1) This equipment was sent to the distributor.

(2) (kg)=kilogram

Scope: Central buildings and bank offices

2015 Developments

- The Bancomer Tower can recycle 100% of rainwater and waste water.
- Filters use cold outside air, avoiding the use of air conditioning.
- Lighting is natural and LED lamps are installed.
- 205 MFDs were installed allowing us to save time, energy and 5,660 meters of paper.
- It has waste containers for proper separation and disposal.

Independent Assurance Report to Grupo Financiero BBVA Bancomer, S.A. de C.V. (BBVA Bancomer) on the Annual Report 2015

Responsibilities of BBVA Bancomer and independent reviewer

The elaboration of the Annual Report 2015 (AR), as well as its content is responsibility of BBVA Bancomer, who is also responsible for defining, adapting and maintaining the management systems and internal control from which information is obtained. Our responsibility is to issue an independent report based on the procedures applied during our review.

This report has been prepared exclusively for the management of BBVA Bancomer in accordance with the terms of our letter of agreement dated November 19th, 2015 and is not intended to be nor should it be used by someone other than this.

Scope of our work

The scope of our assurance was limited, and is substantially lower than a reasonable assurance work. Therefore the security provided is also lower. This report in no case can be understood as an audit report.

We conducted our review of the AR under the following conditions and / or criteria:

- a) The adaptation of the contents of the AR to the Global Reporting Initiative (GRI) Guidelines version 4 (G4).
- b) The review of the General and Specific Standard Disclosures reported according to the option Comprehensive and specified in the GRI Content Index in the same report.
- c) The information provided regarding to the progress in the areas of work on Corporate Responsibility during 2015.
- d) The consistency of information contained in the AR with supporting evidence provided by the management.

Assurance standards and procedures

We have performed our work in accordance with the International Auditing Standard ISAE 3000 Assurance Engagements other than Audits or Reviews of Historical Financial Information issued by the International Auditing and Assurance Standards Board (IAASB) of IFAC. We have also applied Assurance Standard AA1000 (AA1000AS) issued by AccountAbility, to provide moderate assurance level on the application of the AA1000 Accountability Principles Standard (AA1000 APS) and sustainability performance indicators.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee, and its network of member firms, each of which is a legally separate and independent entity. Please see www.deloitte.com/mx/aboutus for a detailed description of the legal structure of Deloitte Touche Tohmatsu Limited and its member firms.

Our review work included the formulation of questions to the management as well as various areas of BBVA Bancomer that have participated in the elaboration of the AR and the application of certain analytical and sample screening tests that are described below:

- a) Meetings with staff of BBVA Bancomer to learn the principles, systems and management approaches applied.
- b) Analysis of the process to collect, validate and consolidate the data presented in the AR.
- c) Analysis of scope, relevance and integrity of the information included in the AR in terms of the understanding of BBVA Bancomer and of the requirements that stakeholders have identified as material aspects.
- d) Selected sample review from the evidence that supports the information included on the AR.

The following table details the General and Specific Standard Disclosures reviewed according to the GRI Guidelines version 4:

| | | | |
|-------|---------|---------|--------|
| G4-9 | G4-27 | G4-EN19 | G4-PR1 |
| G4-10 | G4-37 | G4-EN23 | G4-PR3 |
| G4-11 | G4-56 | G4-EN29 | G4-PR6 |
| G4-17 | G4-57 | G4-EN30 | FS1 |
| G4-18 | G4-58 | G4-LA2 | FS2 |
| G4-19 | G4-EC5 | G4-LA9 | FS3 |
| G4-20 | G4-EN1 | G4-LA12 | FS4 |
| G4-21 | G4-EN3 | G4-LA13 | FS5 |
| G4-22 | G4-EN8 | G4-HR3 | FS10 |
| G4-23 | G4-EN15 | G4-HR12 | FS11 |
| G4-24 | G4-EN16 | G4-SO1 | FS13 |
| G4-25 | G4-EN17 | G4-SO4 | FS14 |
| G4-26 | G4-EN18 | G4-SO5 | FS16 |

Conclusion

Based on the work performed and described in this report, nothing comes to our attention that could make us believe that the AR contains significant errors or has not been prepared in accordance with the Comprehensive Option established in the Sustainability Reporting Guidelines GRI G4 and according to the principles of inclusivity, materiality and responsiveness of the standard AA100APS.

Also, nothing comes to our attention that makes us believe that the information provided about the areas of work on Corporate Responsibility during 2015 contains significant errors.

Recommendations

Additionally we presented our recommendations for strengthening future Annual Reports, which do not modify the conclusions expressed in this report:

- Continue to strengthen the communication and training to the people responsible of the elaboration of the AR in order to enhance the understanding of the processes involved as well as strengthening the reported indicators.

- Keep working on the definition of SMART objectives (specific, measurable, achievable, realistic, and time specific) in order to standardize all the ones that are reported in the table of Progress and Objectives.
- Define, standardize, internally communicate and document the scope and procedures regarding beneficiaries (direct and indirect) and volunteers of the social action programs.

Inclusivity and Materiality

During 2015 BBVA Bancomer has worked on updating the Materiality Analysis. It is recommended, to continue using a direct communication mechanism with the stakeholders, in order to include more of them to identify the different sustainability relevant aspects. This way, it is possible to use those resources that have been already used, to strengthen the sustainability strategy of BBVA Bancomer.

Responsiveness

The Annual Report allows stakeholders to know the organization's performance on financial and non-financial aspects. However, it is suggested to remain working on the identified material aspects to communicate the strategies, actions and results achieved by the organization, as well as giving continuity with the meetings and the working plan of the Responsible Business Committee.

We have submitted a detailed report of recommendations to the Corporate Responsibility and Reputation Officer of BBVA Bancomer concerning areas of improvement in the sustainability strategy (specifically for the verified indicators) and the reporting process.
