

Lise Kingo
UN Global Compact Head
United Nations
New York, NY10017
USA

Dear Ms. Kingo,

I'm pleased to confirm that InterCement reaffirms its commitment to the Ten Principles of the United Nations Global Compact related to Human Rights, Labor Rights, Environmental Protection and Anti-Corruption Compliance, contributing to the UN Sustainable Development Goals.

In the Market since 1974, InterCement one of the largest cement companies in Brazil. In 2012, our company concluded the acquisition of Cimpor, becoming one of the top global cement players and one of the most relevant companies in the industry. In this moment of integration of two business cultures we reaffirm our commitment with the Global Compact's principles as a guidance framework to our daily activities.

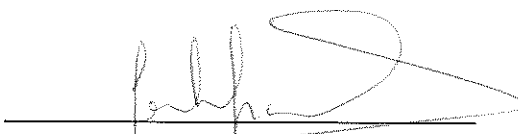

We recognize the Communication of Progress (COP) as major tool of disclosure of InterCement's commitment and actions in the implementation of the Ten Principles. We do support information transparency, understanding it as a requirement for sharing sustainability initiatives with our stakeholders.

Since our first commitment to GC and as a part of our regular communication process we will proceed the uploading of our progress related to the ten Principles in GC COP website. We will also upload our Annual Report where we state regularly the same commitment to key stakeholders and regular public.

This communication shows in a transparent and unequivocally way that the Ten Principles are already embedded not only in our strategy but also in our day-by-day activities.

Yours Sincerely,

São Paulo, May 25th, 2016

José Edison Barros Franco
InterCement Chairman of the Board
