June 10, 2016

Dear UNGC and Stakeholders,

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to the following reasons:

1. Our company made a management decision to move our ISO-AJA surveillance audit to an earlier schedule which ran in conflict with our preparation for the COP.
2. We were and still are currently engaged in multiple health humanitarian activities for patients needing critical medical care in hard to reach areas in the country. Hence, the whole Corporate Social Responsibility Office who is in charge of preparing and writing the report could not compile all the data and information together in order to send our second COP.
3. Our company recently welcomed a new group of investors and a new President was appointed by the Board of Directors, hence, there were some issues that had to be tackled before the preparation of our second COP.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by July 30, 2016 at the latest.

Again, our apologies.

Sincerely,

JILL SANTOS ALVAREZ

Head, Corporate Social Responsibility Office
