To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We would like to request an extension to post our next COP that describes the company's efforts and progress to implement the principles of the UN Global Compact. This will allow us to better align our COP with other Autodesk sustainability disclosures. Our new COP will be posted on the UN Global Compact website by October 4, 2016 at the latest.

Sincerely yours,
