Subject: Renewal Letter of commitment to the Global Compact.

Dear Mr. Secretary-General,

By this letter, I have the honor to reiterate adherence, commitment and support of Gfi Informatique to the ten principles of the United Nations Global Compact meeting the fundamental themes of the Global Compact on human rights, labour, environment and anti-corruption.

Awareness of the principles steering committee defined in the Global Compact statement of commitment is one of our constant values.

We express our commitment to advance these principles in our area of influence and pledge to integrate them into our Group strategy, business culture and its procedures.

We recognize that our active participation in the global partnership for development is crucial to advance United Nations goals.

We also agree that one of the obligations which conditions our participation in the United Nations Global Compact is the annual preparation and publication of a Communication on Progress (COP), an exercise in accountability and transparency that reports publicly to our results and actions for the effective implementation of the ten Global Compact principles.

For this purpose, the commitments, the actions and the results taken by Gfi Informatique are reported in a Communication on Progress (COP) which constitutes our report on Corporate Social Responsibility.

Yours sincerely,

Gfi Informatique
