

Dear all:

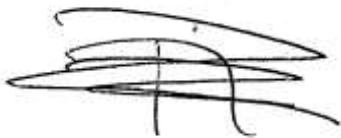

I am really pleased to reconfirm “*GARCIA Y MARQUEZ, SERVICIOS INMOBILIARIOS*” commitment and continued support of the United Nations Global Compact and its ten principles. These principles, which correspond to our global corporate citizenship commitments, help guide our efforts to achieve greater accountability and drive continuous improvement in our business practices. Our involvement in the UN Global Compact also brings new opportunities to partner with other organizations that share our commitments.

The real estate industry as a whole has faced some significant challenges due to the global recession. The current crisis has significantly reduced the volume and pace of commercial real estate transactions. Nevertheless our commitment to corporate social responsibility is stronger than ever. I firmly believe that there is no other way to do business than through an ethical and humanist approach.

Guided by the Global Reporting Initiative (GRI) reporting framework, “*GARCIA Y MARQUEZ, SERVICIOS INMOBILIARIOS*” reports annually on its corporate citizenship performance.

We are committed to distinguishing “*GARCIA Y MARQUEZ, SERVICIOS INMOBILIARIOS*” as the leaders in corporate social responsibility within the real estate services in our country and in our region, Extremadura.

We appreciate your interest in our firm and in our corporate social responsibility efforts.
Sincerely,
