To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to our heavy work load, we have been having some overload, as we are a consultancy agency we have been busy working on sustainability reports for our clients as well as crisis management events that have recently reached our desks. We are very committed to the UN Global Compact, and what to submit in the best Communication on Progress (COP), giving 100% of our time and attention to it.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by December 2<sup>nd</sup> 2016 at the latest.

Sincerely yours,
