To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to updating our management systems to the revised ISO standards. Within this process, we are reassessing material aspects and defining new targets. Those targets should enable us to further improve our activities towards meeting the 10 principles of the UN Global Compact.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by January 3, 2017 at the latest.

Sincerely yours,

Arnd Hoppe
Head of HSEQ
