

October 26, 2016

To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and publication of a Communication on Progress (COP) that is part of a statement CEO continued support the UN Global Compact, a description of practical actions in relation to the principles of the UN World Compact, and measurement results or the expected results.

We are at the end of creation, exchange and publication of our CP report due to internal changes in our organization.

I hereby request an extension in order to be able to post a COP which describes the efforts of our company and progress to implement the principles of the Global Compact of the United Nations. Our new report will be published in the COP the website of the Global Compact of the United Nations on November 15, at the latest.

Sincerely yours,

José Espino
