I have the pleasure to confirm you that Auchan Retail is committed to respect the 10 principles to the Global Compact. A commitment taken for the first time by Groupe Auchan in 2011.

By this mail, I wanted to inform you that Groupe Auchan 2015 annual corporate & social responsibility report have been chosen to communicate on our progress. This document is a synthesis of the company's activities, so much regarding business which of CSR.

Its lecture can be completed by the CSR section of the management report 2015 (available on [www.groupe-auchan.com](http://www.groupe-auchan.com)). This document establishes an exhaustive answer to the reporting obligation which Auchan Holding is subjected by virtue of the French Grenelle 2 law and submitted to certification of an external third body from which audit works, concluded, without reserve, that the published information had been presented in a sincere way.

These results are encouraging, we are however conscious of progress to be achieved, and know that it will necessary for us to answer with always more voluntarism the expectations of all stakeholders.

Best regards.
