Letter of commitment to the United Nations Global Compact

Dear Mr. Secretary-General,

I am pleased to renew Assystem's commitment to support the principles of the Global Compact regarding human rights, labour, environment and anti-corruption.

Assystem has been a member of the Global Compact since 2011, and this commitment expresses our will to advance those principles within our sphere of influence and further implement them as a part of our corporate culture and day-to-day operations.

We are convinced of the need for a collective effort towards advancing the broader sustainable development goals of the United Nations, and we will make a clear statement of this commitment to our stakeholders, clients and partners, as well as to the general public.

We will continue to scrupulously observe the requirement regarding the annual submission of a Communication on Progress (CoP) in order to illustrate our accountability and transparency concerning our commitments, achievements and our progression. By aligning itself with the Global Compact's principles, Assystem wishes to reinforce its determination to continuously improve its ability to meet the expectations of its employees, clients and shareholders, the stakeholders of a vision for a new path to growth.

Sincerely yours,

Dominique Louis,
Chairman & CEO, Assystem
