17th January 2017

To our stakeholders:

I am pleased to confirm that FICCI reaffirms its support to the United Nations Global Compact and its Ten Principles in the areas of Human Rights, Labour, Environment and Anti-Corruption. This is our Communication on Engagement with the United Nations Global Compact. We welcome feedback on its contents

In this Communication of Engagement, we describe the actions that our organization has taken to support the UN Global Compact and its Principles as suggested for an organization like ours. We also commit to sharing this information with our stakeholders using our primary channels of communication.

Yours Sincerely,

Dr. A Didar Singh
Secretary General

Part II. Description of Actions

Please use the box below to describe the actions your organization has taken in support of the Global Compact. It is strongly recommended that the actions taken are related to one or more of the specific activities suggested. *Please refer to the complete list of suggested activities for your type of organization found [here](#).*

Federation of Indian Chambers of Commerce and Industries (FICCI) just celebrated its 89th year and has been working towards offering a variety of services to the Indian Industry to undertake sustainable, efficient and innovative business practices. Through its programs, projects and events, FICCI has been committed to promote business practices that adhere to the principles promoted by the UN Global Compact Network in the domain of Human Rights, Labour, Environment and Anti-corruption.

FICCI works towards raising awareness towards ethical practices in businesses through various internal departments and events & program devised for the industry. Through its Department for Labor and Employment, FICCI works towards the issues of labor and Industrial Relations, Social Security and Health and Safety at the work place. This apart, the division also deals with the issues related to Affirmative Action in private sector, vocational skills assessment & certification and Private ITIs. The Labor and IR issues are looked after by an allied body of FICCI called 'All India Organization of Employers (AIOE), which represents employers and industry in the tripartite setup of the Ministry of Labor and Employment, Government of India to evolve labor and social policies.

The FICCI Environment and Climate Change Division works on policy and regulatory issues pertaining to environment, and also works on environmental projects with various national and international agencies, organizes outreach events, training programs and workshops for industry awareness on issues pertaining to environment and climate change.

FICCI has established the Inclusive Governance Council that will act as an umbrella body to address issues of governance by creating a consultative platform to bring on board all stakeholders on an ongoing basis. The Council has worked towards building ethical business practice awareness amongst the stakeholders' part of the forum.

The various programs undertaken alongwith knowledge papers released in the time span under consideration for this report have been listed in the report in a tabular format that describe the Activity, its date and location of conduct and a brief description of the activities undertaken.

1	Principle 3: Business should uphold the freedom of association and the effective recognition of the right to collective bargaining	Workshop on Industrial Unrest: Past Trend and Lessons for Future	23-Apr-12	New Delhi	(Image1)
2	Principle 6: the elimination of discrimination in respect of employment and occupation	Workshop on Sexual Harassment at Workplace Bill- 2012: Issue, Challenges and Compliance	19-Apr-13	New Delhi	<p>The Conference was organized on the occasion of the Sexual Harassment at Work Place Bill, 2012 has been passed by both the houses of the Parliament. The legislation placed a number of obligations on the part of an enterprise or any work place, to set in place an elaborate mechanism for preventing and investigating the cases of sexual harassment through constitution of internal Complaints Committee, provides for punishment and deals with the issues of gender sensitization at the work place to create a healthy working environment. The workshop was organized to study the issue which is highly sensitive and needed handling with due knowledge and information to avoid any violation or penal provision. The All India Organisation of Employers (AIOE) along with Federation of Indian Chamber of Commerce & Industry (FICCI) and supported by the International Labour Organisation (ILO), is organising an informative workshop on 'Sexual Harassment at Work Place Bill - 2012: Issue, challenges and Compliance'</p> <p>(Image 2)</p>

5	Principle 7: Businesses should Support a Precautionary Approach to Environmental Challenges	FICCI-USIBC Lecture on Regional Economic Cooperation in South Asia with Robert D. Hormats, US Under Secretary of State for Economic Growth, Energy, and the Environment	30-Jan-13	Delhi	Mr. Robert D Hormats, US Department of State - Under Secretary for Economic Growth, Energy & Environment, underlined the need for dismantling barriers in the way of India-Pakistan trade, which has the potential to raise cross-border trade to over US\$10 billion a year within three years. Mr. Hormats while delivering a lecture on 'Regional Economic Cooperation in South Asia', organized by FICCI in association with the US-India Business Council said, "The US remains committed to support efforts by both India and Pakistan to improve all aspects of the relationship, including the expansion of trade and people-to-people ties." <i>(Image 5)</i>
6		Industry Consultation on Green Climate Fund	11-Feb-13	Delhi	FICCI conducted an Industry Consultation on the GCF on Feb 11, 2013 in New Delhi. The Consultation was supported by Ministry of Finance and UNDP. The Objective of the Consultation was to get industry's views on concerns and expectations from the GCF Participants included industry and financial institutions. The discussion was focused on accessibility, what should be funded, source of financing, and role of Indian financial institutions. The event was attended by Companies from both private and public sectors. <i>(Image 6)</i>

7	Principle 7: Businesses should Support a Precautionary Approach to Environmental Challenges	FICCI – UNEP Conference on Designing a Sustainable Financial System for India.	25-Nov-14	Delhi	FICCI and the United Nations Environment Programme (UNEP) jointly organized a Conference on Designing a Sustainable Financial System for India on November 25, 2014 at FICCI, Federation House, Tansen Marg, New Delhi. The Conference deliberated on the potential for developing a sustainable financing policy for banks and financial institutions in India, exploring the role of capital markets in India in efficiently allocating capital to key green economy priorities, and factors that enhance flow of finance into clean and green projects, including innovative mechanisms that could increase availability and accessibility of funds for clean energy, climate change mitigation and sustainability initiatives. <i>(Image 7)</i>
8		Industry Interactive Session with Mr. Ashok Lavasa, Secretary Ministry of Environment, Forests and Climate Change, GOI	20-Jan-15	Delhi	FICCI organised an Industry Interactive Session with Mr Ashok Lavasa to apprise him of the issues being faced by Corporates and to provide a platform to the Industry members to have a dialogue with the Hon'ble Secretary of Environment, Forest and Climate Change. The Secretary responded that his Ministry will look into FICCI's suggestion of constituting a Working Group to enable the government and private sector work closely in climate policy and planning.

9	Principle 7: Businesses should Support a Precautionary Approach to Environmental Challenges	NGT International Conference on Global Environmental Issues	14-15 March 15	Delhi	With a view to help the environment and mitigate the impact of climate change, the National Green Tribunal, the Union Ministry of Environment and Forests, FICCI and the Indian Law Institute organised an international conference on global environmental issues. The event saw the participation of nearly 30 nations. The conference, held on March 14-15 brought together legal luminaries like United Kingdom Supreme Court judge Justice Robert John Anderson Carnwath and Professor Upendra Baxi, among others. A curtain-raiser was organised at FICCI on Thursday, where NGT chairperson Justice Swatanter Kumar addressed the gathering. NGT's judicial member Justice P. Jyothimani, expert member D.K. Agrawal and Registrar-General Sanjay Kumar also addressed the event. Vice-President Hamid Ansari was the chief guest at the conference, which was presided over by Chief Justice H. L. Dattu. Union Minister of State for Environment & Forests Prakash Javadekar and Attorney-General Mukul Rohatgi were the guests of honour. <i>(Image 8)</i>
10		Stakeholders Consultation on Draft Waste Management Rules, 2015	8-May-15	Mumbai	Waste Management and Sanitation are amongst the most important and burgeoning problems of the country. The Ministry of Environment, Forests and Climate Change, Government of India, has time and again attempted to involve a multitude of stakeholders in charting out the best probable solutions to the waste problems of the country. The Central Pollution Control Board has been instrumental in the drafting of waste related legislations in the country. The Ministry along with CPCB had sought to revise all the rules pertaining to waste management viz Municipal Solid Waste, Plastic Waste, Electronic Waste, Hazardous Waste and Bio Medical Waste. The Ministry had given the opportunity to FICCI to hold the workshops in Mumbai on May 8, 2015. This multi stakeholder consultation was extremely relevant for the industry as Public Private Partnerships are the most effective instrument for implementation of these Rules. Since Industry, especially the Private Sector has the capacity and capability to source the latest technology innovations, and project ideas for waste management projects, it is evident that industry will play a major role in the implementation of these Rules.

S. No	UN Principal	Activity	Date	State Chapter	Description
11	Principle 7: Businesses should Support a Precautionary Approach to Environmental Challenges	Stakeholders Consultation on Draft Waste Management Rules, 2015	18-Jun-15	Kolkata	As highlighted above, the Ministry along with CPCB had sought to revise all the rules pertaining to waste management viz Municipal Solid Waste, Plastic Waste, Electronic Waste, Hazardous Waste and Bio Medical Waste. The Ministry had given the opportunity to FICCI to hold the workshops in Kolkata on June 18, 2015. This multi stakeholder consultation was extremely relevant for the industry as Public Private Partnerships are the most effective instrument for implementation of these Rules. Since Industry, especially the Private Sector has the capacity and capability to source the latest technology innovations, and project ideas for waste management projects, it is evident that industry will play a major role in the implementation of these Rules. <i>(Image 9)</i>
12		FICCI Conference on "Green Bonds"	8-Sep-15	Delhi	FICCI organised a Conference on Green Bonds supported by HSBC where over 100 investors, issuers and regulators met. Mr. Upendra Tripathy, Secretary, Ministry of New and Renewable Energy, assured banks and other funding agencies that the Government of India has put in place an elaborate eco-system to support green projects and it was now up to the lending agencies to help bring down the cost of capital and technology to realize the target of generating 170,000 MW of renewable energy. He also said that the cost of credit was the most crucial component for undertaking renewable energy projects as the cost of technology was difficult to bring down unlike other inputs such as land and manpower costs. <i>(Image 10)</i>

S. No	UN Principal	Activity	Date	State Chapter	Description
13	Principle 8: Undertake Initiatives to Promote Greater Environmental Responsibility	Water Disclosure for Indian Industry	21-Jan-13	Delhi	Water is an important input into industrial production, more so in case of water intensive sectors like thermal power, textile, steel, chemicals, pulp and paper. Water demand for the industrial sector is on a rise and will account for 8.5 and 10.1 per cent of the total freshwater abstraction in 2025 and 2050 respectively. This is a 4 per cent rise from the current level of 6 per cent of the total freshwater abstraction by the industries in 2010. Carbon Disclosure Project (CDP) India and Federation of Indian Chambers of Commerce and Industry (FICCI) organised a half day workshop and panel discussion to understand the feasibility of water disclosure in India and share experience of Indian companies and investors. FICCI invited a select group of representatives across industry, government, and civil society organizations for workshop. <i>(Image 11)</i>
14		FICCI-HSBC Knowledge Initiative: Sustainable Agriculture Water Management	20-Feb-13	Delhi	The FICCI-HSBC Knowledge Initiative Report on 'Sustainable Agriculture Water Management' and FICCI and Earthwatch Institute's booklet on 'Safeguarding Urban Freshwater Bodies' under the aegis of FICCI Water Mission was launched at FICCI, New Delhi on Feb 20, 2013. We are already a water stressed nation, and with further reduction in per capita availability of water, we will soon be a water scarce nation. Our per capita water availability at present is already low, and is to the tune of 1545 cubic meter, per person, per year. By 2050, per capita availability of water will decrease to 1140 cubic meter, per person per year. To face this situation, we need to enhance the storage capacity, from 253 billion cubic meter at present, to about 450 billion cubic meter. This is one of the major thrust areas of the National Water Policy, 2012. This knowledge initiative involves compilation of best practices for water intensive industrial sectors such as power, agriculture, steel and chemicals etc. <i>(Image 12)</i>

S. No	UN Principal	Activity	Date	State Chapter	Description
15	Principle 8: Undertake Initiatives to Promote Greater Environmental Responsibility	India Sustainability Conclave	25 - 26 Feb- 13	Delhi	Business leaders are increasingly realizing the need to integrate environmental and social issues within their business strategies. Many Indian businesses have begun taking concrete steps towards developing and implementing a sustainability strategy. Despite the growing interest, many businesses lack the capacity and know-how for managing such initiatives. Therefore, it becomes crucial for the government to provide the framework for companies to engage in sustainability. FICCI launched the India Sustainability Conclave in 2012 to provide a platform to businesses to exchange thoughts, ideas and best practices in corporate sustainability. This was the second edition of the Conclave. <i>(Image 13)</i>
16		Launch of FICCI Solar Energy Task Force Reports and Indian Solar Handbook and Directory	13-Aug-13	Delhi	Mr. Tarun Kapoor, Joint Secretary, Ministry of New and Renewable Energy, Government of India released the FICCI reports on 'Financing Solar Energy' and, 'Securing the Supply Chain for Solar in India' and Indian Solar Handbook and Directory. The reports by the industry came at a time when the solar sector in India was undergoing tough times due to lack of appropriate financial mechanisms, low cost financing alternatives, and regulatory certainty. <i>(Image 14)</i>

17	Principle 8: Undertake Initiatives to Promote Greater Environmental Responsibility	FICCI Water Awards	6-Aug-13	Delhi	Mr. Montek Singh Ahluwalia, Deputy Chairman, Planning Commission, Government of India and Ms. Naina Lal Kidwai, President, FICCI, gave away the FICCI Water Awards to 10 companies on August 6, 2013. These awards recognized the efforts of the Indian industry in areas such as water efficiency, management and its conservation. FICCI in association with HSBC instituted the annual Water Awards, under the auspices of FICCI's Water Mission. This year a fourth category was introduced, Water Initiative by NGOs, to the existing three categories of Industrial Water Efficiency, Community Initiatives by Industry and Innovation in Water Technology. The entries received depict the wide range of initiatives Indian companies and civil society organizations are taking up to conserve water resources. The initiatives adopted range from integrated watershed management, rainwater harvesting; wastewater treatment; water audits and technology modification for reduction in freshwater consumption and reuse of wastewater. <i>(Image 15)</i>
18		India Climate Policy and Business Conclave 2013	18 - 20 Sept 13	Delhi	To enhance climate change initiatives at the state level, FICCI has outlined a 7-point package of measures at the 'India Climate Policy and Business Conclave 2013', organised by FICCI in association with the Ministry of Environment & Forest, Government of India, the World Bank and German Environment Ministry. The event focused on global initiatives supporting leaders and practitioners in addressing the impact of climate change. Experts also spoke on private sector interventions in different areas such as energy efficiency in municipal service areas and urban waste management, and the role that businesses can play going forward in making public private partnerships effective with appropriate policy linkages. In the two days, the conclave focused on issues such as Global Climate Change Negotiations: Current State of Play; Climate Finance; Domestic Finance and Fiscal Initiatives; Domestic Market Mechanisms & Future of Carbon Markets; Climate Change Adaptation and Role of Business and Business Perspectives on Climate Change and Emerging Global Regime. <i>(Image 16)</i>

19	Principle 8: Undertake Initiatives to Promote Greater Environmental Responsibility	Workshop on Electronic Waste Regulations and Implementation	22-Jan-14	Delhi	FICCI conducted a workshop on Electronic Waste Regulations and Implementations on January 22, 2014. All the relevant regulators and policy makers from MoEFCC, CPCB and various state pollution control boards were present in the workshop. All members of the Producer segment and many members of the recycler segments were in attendance
20		GRI Certified Training Course on GRI G 4 Guidelines organized by FICCI with KPMG	13 - 14 March 14	Delhi	FICCI tied up with KPMG to conduct the GRI Certified Training Course on GRI G4 Guidelines in 2014 to conduct training of Corporates in four workshops in a year. Experts from KPMG conducted the two day training programme.

S. No	UN Principal	Activity	Date	State Chapter	Description
21	Principle 8: Undertake Initiatives to Promote Greater Environmental Responsibility	FICCI Leadership Calls-on Shri Prakash Javadekar, Minister for Environment, Forests and Climate Change	21-Aug-14	Delhi	A FICCI delegation led by Mr Sidharth Birla, President, FICCI and comprising senior business leaders met Shri Prakash Javadekar, Minister for Environment, Forests and Climate Change to articulate industry's position on climate change. FICCI requested the Minister to articulate the industry position in his address to the UN SG Climate Summit, the needs of Indian industry, the ambitious domestic programmes put in place that will support low carbon development, the renewable energy targets achieved, the energy efficiency goals met, and the future strategic climate related interventions the government is planning to espouse. (Image 17)
22		WASTE2VALUE - Unlocking the Potential of Swachh Bharat Mission	1-Jun-15	Delhi	The Embassy of the Kingdom of Netherlands, Ministry of Urban Development (MoUD) Government of India, and FICCI along with the Netherlands Waste2Value Consortia organised a one-day Seminar on Waste2Value: Unlocking the Potential of Swachh Bharat Mission, on 1st June 2015, from 0900 hrs to 1800 hrs at Hotel Taj Palace, New Delhi. Through this seminar, the Waste2Value Consortia looked at sensitizing the private players in waste management sector by developing collaborations and joint ventures with Indian companies. The Indian companies also had an opportunity for one to one B2B meetings for exploring possibilities of associating with their Dutch counterparts in the area of waste management. As the companies possess more than 100 years of experience in the waste sector in developed nations and several decades of experience in the developing nations, the seminar was a vital platform for companies in the waste management space in India to learn from the Dutch experience.

23	Principle 9: Encourage the Development and Diffusion of Environmentally Friendly Technologies	India International Cleantech Summit 2013	8-Oct-13	Delhi	The Summit aimed at providing a platform for facilitating the creation of a Cleantech ecosystem in the country and for bringing diverse stakeholders of the Cleantech community together. It was a unique initiative focusing on new and advanced clean technology applications that would provide scale, be replicable and have significant material impact in a country like India. The Summit focused on building consensus on an enabling policy environment that would catalyze investment in clean technology. It highlighted the opportunities for the Cleantech market in India and the challenges for global Cleantech companies and investors to engage in the Indian market. The Summit brought together the Indian and global Clean Technology stakeholders to accelerate the flow of clean technologies. On the occasion, a FICCI-EY Knowledge Paper on 'Cleantech Global Trends & Indian Scenario' was released. <i>(Image 18)</i>
24		INDIA GEF MSME UNIDO Cleantech Programme for SMEs Fostering Clean Technology Innovation in India	3-May-13	Delhi	The GEF – UNIDO Cleantech Project is a collaborative project of the Federation of Indian Chambers of Commerce and Industry (FICCI), United Nations Industrial Development Organization (UNIDO) with the Ministry of Micro, Small and Medium Enterprises (MSME), and was launched by Dr Naoko Ishii, CEO & Chairperson of the Global Environment Facility (GEF) and Shri Madhav Lal, Secretary, Ministry of MSME at Federation House, New Delhi. The project focused on building a roadmap for creating a Cleantech ecosystem in India through an interdisciplinary approach involving SME clusters, ministries, academia, industry associations, state governments, partner agencies and autonomous research centres globally and in other developing countries. Recognizing the criticality to share and document best practices that can help enhance productivity in SMEs and mitigate climate change, the project closely coordinated with similar international efforts. The Cleantech Project had a special focus on linking innovators to investors. <i>(Image 19)</i>

25	Principle 9: Encourage the Development and Diffusion of Environmentally Friendly Technologies	Seminar on Clean Technologies, Waste Management & Renewable Energy	25-Nov-13	Delhi	FICCI with the Belgian Embassy organised this Seminar when Princess Astrid of Belgium visited India from November 22 – 30, 2013, accompanied by Deputy Prime Minister and Foreign Minister of Belgium. They led a delegation of 300 businessmen to deepen cooperation with India in sectors like cleantech, waste management and renewable energy.
26		First Regional Workshop for Clean Technology Innovation in SMEs for West India	2-Apr-14	Vadodara	The GEF funded MSME UNIDO Cleantech Programme for SMEs was launched in New Delhi jointly by the Ministry of MSME, UNIDO, GEF and FICCI. It primarily aimed at identification and promotion of clean technology innovations in SMEs. The idea was to promote sustainable development and reduce carbon footprint by introduction of new innovative clean and efficient technologies in SMEs. The Programme adopted an inter-disciplinary approach involving SME clusters, national ministries, academia, industrial associations, state governments, partner agencies and autonomous research centers in the country and abroad to promote best practices for innovative technologies in selected industrial clusters across the country. The workshops were conducted by FICCI in Vadodra, Ludhiana, Kolkata and Chennai.
