Dear Mr. Secretary General,

I am pleased to confirm that Hope Worldwide-Pakistan (HOPE) supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent to advance these principles within our spheres of influence, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and involve with the activities of the UN Global Compact where appropriate and feasible for example participation in country/local network; involvement in specialized initiatives and work streams; engagement in partnership with our stakeholders to advance the UN Global Compact's principles and promote UN SDGs. We are committed to make UN Global Compact and its principles part of organizational culture, strategy and day to day functions.

We recognize that a key requirement for participation in the Global Compact is the biannual submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within a year and thereafter every two years according to the UN Global Compact COP policy.

Sincerely yours

Dr. Khurram Malik
