To our stakeholders:

We fully recognize key requirements for participation in the UN Global Compact. Because of longer than normal production season in 2016 we could be late in posting our Communication on Progress (COP) report. We hereby asked for an extension period in order to be able to post a COP that fully describes our company's efforts and progress to implement the principles of the UN Global Compact. Our COP report will be posted on the UN Global Compact website by 1st of March at the latest.

We appreciate and highly value your support and understanding.

Sincerely,

Mykola Kovalski
Director, Marketing and Communications
