

UN Global Compact Communication on Progress

Edita Bobergs AB 2016

STATEMENT

Edita Boberg is really proud to be a Global Compact company. When we in 2009 via our partner Respect (today South pole group) got a chance to work with other Swedish small businesses to join the Global Compact we never hesitated as environmental and safety issues have long been the focus of Edita Boberg. We continue to give priority to these areas and, with our support for United Nations Global Compact, we show our world that we pay attention to important issues related to human rights, labor rights and our shared environment. In this Communication on Progress, we have summarized the progress we have made under any of these principles.
