Dear Mr. Secretary-General,

Marchesi is located in the Suzhou Industrial Park, a Italian-owned enterprises. Our main businesses are the telecommunications and electrical industries magnesium die-casting parts development, production and assembly services.

We applied to commit to the UN Global Compact in Feb.2015 and I am pleased to confirm that we continue to support ten principles of the global Compact with respect to human rights, labor, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engage in collaborative projects which advance the broader development goals of the United Nations;

We will continue to make this clear to our stakeholders and the general public. We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes the company's efforts to implement the ten principles. We support public accountability and transparency, and therefore in addition to this letter we respectfully issue our COP of this year. We naturally welcome any advice on how we can further improve.

Sincerely Yours,

Veronica Campidelli

CEO
