SUPPORTING STATEMENT BY THE EXECUTIVE MANAGEMENT OF THE COMPANY

Dear Mr. Secretary General,

Pacadar joined the Global Compact in 2012 with the purpose of contributing to progress, promotion and dissemination of social awareness in line with the principles of respect for human dignity, environmental protection and support for the most disadvantaged sectors, among others. With the submission of the Progress Report 2015, our Company wishes to reiterate its commitment with the Global Compact and its ten principles, as well as reflecting the progress made in Pacadar on the promotion of labour and human rights, environmental protection and fight against corruption.

During the year under review PACADAR has continued to advance in the provision and implementation of programmatic, normative and operational tools which define and evidence the ethical context of the organization in the way of understanding business. Thus, among other actions, it is worth highlighting our work on the environmental implementation of the integrated management system, based on the requirements established in the International Standard ISO 14001:2015, in all the national centres (Spain) and the award of the 14001:2015 certification.

With regard to the objectives set for next year, we will continue to advance in all areas and especially in the implementation of the integrated environmental management system by developing the manuals. We therefore plan to develop and disseminate the *Manual of Best Practice*.

Yours sincerely,

Francisco Javier Martinez de Castañeda
PACADAR's Chief Executive Director
