To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to the fact that it is at the same time we are creating and posting our Environmental EMAS report and have environmental and quality audits ISO 14001, EMAS and ISO 9001. At the same time, we would like to have more time to dig into the new 17 global goals and make them local business.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by July 17<sup>th</sup> 2017 at the latest.

Sincerely yours,  
Ms. Gunhild Lundby Dokkedal  
Chemical Engineer / Environmental & CSR & Quality & LEAN Responsible
