

Rotork plc
United Nations Global Compact Communication on Progress 2016

STATEMENT OF CONTINUED SUPPORT

Our company has been a signatory to the United Nations Global Compact since 2003 and we continue to support it and strive to embed its principles into the everyday operations of our business.

Since 2003, we have made many measurable improvements in our corporate social responsibility performance. This has included the development of, and subsequently been supported by, a CSR structure including a CSR committee chaired by the Chief Executive with sub-committees covering ethics, the environment, health and safety and social issues.

In 2016, our CSR activity and performance improvements included once again exceeding the group accident frequency rate target as well as the continued support of WaterAid and Sightsavers, as Rotork's global charities and contributing to NGO Seva Bharathi.

We are also pleased to be able to confirm that we remain a constituent member of the FTSE4Good index.

Full details of our activity and progress in 2016 can be found in our 2016 Annual Report.

As a global business manufacturing control products used in a wide range of industries including water, power and oil and gas, we recognise that we have the opportunity to positively impact the lives of a significant number of individuals and businesses globally through the products we manufacture and the services we provide and it is our intention that by adopting the Global Compact principles our positive impact will continue to improve.

Full details of our support for the UN Global Compact, progress and future targets can be found in the Rotork plc Annual Report 2016 which can be downloaded from our website.

A handwritten signature in black ink, appearing to read "P France". The signature is fluid and cursive, with the first letter "P" being large and prominent.

Peter France
Chief Executive
