Paris, 5 May 2017

SCOR SE is pleased to renew its commitment to promoting and further advancing the 10 principles of the United Nations Global Compact, which the company first formally endorsed in 2003.

Our Communication on Progress (COP) this year deals with the four overarching principles of the Global Compact (human rights, labour relations, environment and anti-corruption). We describe the practical actions that have been taken over the course of the year, or in recent years, and outline their underlying objectives. An update on the information communicated last year is also available in this COP.

Part of this COP also appears in the sustainable development section of SCOR's corporate annual report and in the management report attached to SCOR's reference document, where additional information is also available, notably with regard to our involvement in several research activities.

Yours faithfully,

A handwritten signature in blue ink, consisting of a series of loops and a long horizontal stroke extending to the right.
