Dear Mr. Secretary-General,

I am pleased to confirm the continued commitment of the Group Akka Technologies to the UN Global Compact and its principles within the areas of human rights, labour, environment and anti-corruption.

We are engaged in making the UN Global Compact part of the strategy, culture and day-to-day operations of our company, and in promoting the universal sustainability principles within our sphere of influence.

We support public accountability and seek to optimize the communication to our stakeholders on our commitment and our efforts to implement the ten principles of the Global Compact.

To enhance transparency and overview, the 2016 Communication on Progress (COP) has been integrated into our Corporate Social Responsibility Report 2016, including the following:

- Descriptions of practical actions to comply with the Global Compact principles
- Qualitative or quantitative measurements of results (when applicable)
- Description of future corporate responsibility objectives

Sincerely yours,

Mr Maurice Ricci
