26 May 2017

To our stakeholders,

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to unexpected personnel changes. Ecodesk as a small business recently witnessed the departure of the key responsible for the Global Compact COP report submission. We have not been sufficiently able to fill the gap left as a consequence, however remain committed to submit our COP by the deadline provided by the grace period.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by August 24th 2017 at the latest.

Sincerely yours,

Ecodesk
