To our stakeholders:

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to unforeseen circumstances. We had to restructure our operations during the end of 2017. We are now more capable to meet our commitments going forward and express continued support for the Global Compact and our ongoing commitment to the initiative and its principles.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 24 July 2017 at the latest.

Sincerely yours,

Mr. F. Mazhandu

CEO
