Bezons, July 1st, 2017

Dear Mr. Secretary-General,

ATOS is global digital services leader with 100,000 employees in 72 countries. Serving a global client base, the Group provides expertise in different fields: Business & Platform Solutions, Infrastructure & Data Management, Cloud & Enterprise Software, Big Data & Security, Communication Software & Platforms, as well as Transactional & Payment Services through Worldline, the European leader in the payments and transactional services industry.

Corporate Responsibility is part of Atos DNA, as clearly stated in our Ambition 2019 three-year plan, and our leadership in sustainability has been recognized by entities such as the Global Reporting Initiative, the Dow Jones Sustainability Index and the Carbon Disclosure Project for many years.

I am pleased to confirm that Atos is again renewing its commitment to the ten principles of the United Nations Global Compact with respect to human rights, labor standards, protection of environment and anti-corruption, and continue to take concrete actions in all the entities part of Atos Group. These actions and their results are reported in two documents which constitute our Integrated Corporate Responsibility Report and Communication on Progress:

- The Atos Registration Document, with exhaustive information, which is shared with the market, by an official deposit to the French "Autorité des Marchés Financiers". This document contains the whole set of key performance indicators aligned with the GRI G4 Guidelines - Comprehensive Option, fully integrated with the financial statement of Atos.
- The Corporate Responsibility Report, which is Atos official and public statement. This document contains the main Key Performance Indicators and highlighting key initiatives and cases studies, as well as the GRI G4 Content Index Table, referring to the ten principles.

ATOS reiterates its commitment to the Global Compact towards its stakeholders, regardless the nature of their relations with ATOS. In addition, we reiterate the annual submission of our Communication on Progress (COP).

Yours sincerely,

Thierry BRETON
Chairman and CEO
