Dear Mr. Secretary-General,

We are pleased to confirm that Habegger AG supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

With this communication, we express our intention to advance the principles of the Global Compact within our sphere of influence. We are committed to making the Global Compact principles part of the strategy, culture and day-to day operations of our company and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Habegger AG will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency and therefore commit ourselves to reporting on progress according to the Global Compact COP policy.

Sincerely yours,

Simon Ackermann
Member of the Board & CEO
