

July 19th, 2017

To our stakeholders:

We are well aware of the importance of the annual COP (Communication on Progress) submission, which sums up all of our initiatives regarding anticorruption, labor, environment, and human rights, as a way to communicate our initiatives and better practices to our stakeholders.

We wish to align our COP to our annual reporting cycle, as we firmly believe an adjustment of the COP submission will benefit all of our stakeholders, by having a reporting period when the whole year is over. We hereby ask for a date adjustment to February 16th, 2018.

Kind regards,

Lic. Carlo Israel Ledezma Esparza
