

## The Chairman and CEO

His Excellency Antonio Guterres  
Secretary General of the United Nations  
United Nations Headquarters  
New-York, NY 10017

Paris, **24 JUL. 2017**

Dear Mr. Secretary General,

EDF first joined the UN Global Compact in August 2001. Ever since EDF has worked in line with the ten Global Compact principles and I want, once again, to renew my support to this initiative.

The UN Global Compact, together with the UN Guiding Principles on Business and Human Rights and the OECD Guidelines for Multinational Enterprises provide us with a solid foundation of internationally recognized principles for building a more sustainable business.

We recognize that the Communication on Progress (COP) is an important tool of transparency that gives us an opportunity for an internal and external annual evaluation of our achievements.

Moreover in 2016, we have adopted six Corporate Social Responsibility Goals, echoing the seventeen Sustainable Development Goals. Each reflects a strong climate and low-carbon commitment, human development of EDF Group's employees, offers for clients and especially the most vulnerable, energy efficiency, dialogue and consultation, and biodiversity conservation. These are significant and priority commitments on which the Group will report each year.

By implementing the ten UN global Compact principles and these six Corporate Responsibility Goals, we strive to remain an efficient, responsible electricity company that champions low carbon growth.

Sincerely yours.
